

Material No.: 5657-02

:

Revision No.: 0

Product Specification

Test	Specification
pH at 25°C	3.96 – 4.04
Appearance	Passes Test

For Laboratory, Research, or Manufacturing Use
Each lot compared to NIST Standard Reference Buffer.
Contains no antimicrobial preservative.
Potassium Biphthalate, Molarity (typical range): 0.0498 – 0.0502

Packaging Site: Paris Mfg Ctr & DC
