Customer:	VWR INTERNATIONAL LTD	Customer code :	ART.121-024	B + K Product :	16110042

Description : **Open mouth bag with bottom sealed**

Size : **495** mm x **910** mm **Theorical weight** **123** g

A : Lenght
B : Width

B+K France validation

Object: **Creation**
Approved by: **N. MOREAU**
Visa:

Customer validation :

Date:
Position :
Name + company stamp:

	Dimensionnal Characteristics :			**Options**
Outside layer :	Material :	**Coextruded polyethylene** Color **Transparent**		
	Thickness :	**150**	*µm (average +/-5%)*	
	Apparente width :	**495**	*mm (+/- 5 mm)*	
	Length:	**910**	*mm (+/- 10 mm)*	
Type of weld:	**Horizontal seal at the bottom**			
Coding	B+K acronym / manufacturing week and year / number of reel used or order number			
Packaging :	Plastic cover + plastic strapping + stretch film.			**Cardboard box**
	Cardboard box on wood pallet (mm):	**1100 x 1100**	*mm*	
	Quantity per paquet:	**25**	*unit*	
	Quantity per pallet :	**5000**	*unit*	
Identification :	Per pallet : 1 representative sack + 2 label identification B+K			

Order quantity tolerence :

Bags / Film / FFS tube / covers - thickness > 150µm =
15 % for the quantity < 5 000 units / linear meters
10 % for the quantity between 5 000 units and 25 000 units / linear meters
5% for the quantity > 25 000 units / linear meters

Bags / Film / FFS tube / covers - thickness < 150µm =
30 % for the quantity < 10 000 units / linear meters
20 % for the quantity between 10 000 units and 25 000 units / linear meters
15% for the quantity > 25 000 units / linear meters
5% for the quantity > 1 000 000 units / linear meters

For the units products, a comptage error of 5 / 1 000 units is possible .

The diameter of 10 % + 1 wheel can be inférior of the specification.

Storage conditions :

We recommand to store our product between 15°C and 35°C with a humidity ratio between 45% and 75%. An UV protection is recommanded. The outide storage expose our product to the environnemental conditions which are not controllable. Bischof + Klein decline all responsability for dammage due to the inapropriate storage.

Advices

We recommand to remove the first meter after the chuck to avoid contamination. Before Use, Bischof + Klein recommand to store the product 48 hours with the production conditions.
The use must take place within 6 months from the date of ex-works.

Legislation / Provision / Alimentarity

In view of our process and our HACCP analysis - in the case of bags with perforations - we cannot guarantee the total absence of metals in our products. We recommend our customers to use a metal detectors during our products.
B + K France has implemented a quality management system certified ISO 9001, version 2015 and Food Safety management system according to the FSSC22000.
We also wish to reiterate that the technical suitability for the final application should be determined by the user with the conditions of use.

Any changes that may affect interactions with our product have to be subject to a re-qualified.
Compliance with national, European and international provisions in force (provisions on legislation on food products, on the environment, on pharmaceutical products, for example) must be confirmed in written declarations of conformity, which are issued to the customer at the case by case after written request from it to B + K France.
This product can not be used for packaging foodstuffs intended for babies or infants or other products intended for babies or infants (baby food / infant food).
