

Micro Absorbond® Swab

Absorbond Series

Description

The Micro Absorbond® Swab is an excellent swab for cleaning very small grooved, slotted and recessed areas. Its hydroentangled continuous-filament polyester head is extremely low in nonvolatile residue. A compact handle and flexible internal head paddle provide support and control. The softness of the Absorbond® head also makes it a good choice for sensitive surfaces, including coated optics.

Features

- Double-layer, hydroentangled Absorbond® polyester tip over thin, flexible paddle
- Compact, light green polypropylene handle
- Thermally bonded head
- Exceptionally soft and nonabrasive

Benefits

- Ultralow nonvolatile residue
- Low particle generation
- Good sorbency
- No contaminating adhesives
- Excellent chemical resistance

Applications

- Cleaning with solvents such as IPA
- Applying lubricants and other liquids
- Removing excess materials
- Wiping sensitive surfaces including coated optics
