# HyFlex™

## 11-644

**Flexible cut protection with thinner palm**

Cut | Abrasion Protection | MD | Medium Duty

# Flexible cut protection with 20% thinner palm design* for improved dexterity

- **Improved dexterity:** Sleek palm design is 20% thinner* than competitors, for greater flexibility and freedom of movement
- **Ergonomic fit:** Proprietary Ansell materials offer a soft, comfortable feel while working
- **Enhanced cut protection:** HyFlex™ 11-644 gloves utilize INTERCEPT™ Cut Resistance Technology to deliver ANSI/ISEA 105-2024 A2/EN ISO B cut protection, achieving higher performance within the same cut class
- **Enhanced durability:** Polyurethane coating remains flexible while providing reliable resistance to abrasion over time
- **Genuine practicality:** Available in vend pack form for easy access, storage and re-application

* Comparison is based on Ansell lab tests under standardized conditions versus similar competitive gloves available at the time of testing. Results may vary by application.

**Industries**

- Automotive
- Machinery and Equipment

**Applications**

- Press shop operations
- Handling metal sheets & panels
- Handling parts with sharp, rough edges
- Inspection (picking, checking and marking)
- Cutting glasses, sheets, panels
