

The transparent multi-purpose plastic box BASICBOX CLC-XL, with a capacity of 36 liters, is ideal for storing, organizing, and transporting various components. Made from polypropylene, it is highly resistant to shocks, dust, temperature changes, and most commercially available chemicals.

The BASICBOX CLC-XL model has external dimensions of 578 x 396 x H185 mm and features a snap-on lid with a rim, allowing multiple boxes to be stacked securely in a stable stack.

## PRODUCT ADVANTAGES

- **Secure** : The box's lid ensures constant protection of the contents, safeguarding products from dust, moisture, and other external contaminants.
- **Practical** : Its transparency makes it ideal for storing a variety of products, making it versatile for multiple applications, whether for storage or transport.
- **Durable** : Made of polypropylene, it is resistant to temperature variations, moisture, and impacts.
- **Hygienic** : The solid and smooth walls allow for quick drainage of liquids.
