

Technical data sheet

Item code PL 693

TECHNICAL SPECIFICATIONS

Description:	Plastic case Euro norm Bottom Closed Walls Closed Handles Closed
Raw material:	Polypropylene (PP)
Usage:	Lightweight and durable, it features two handles on short sides. Bottom and walls are closed. Easy to clean thanks the smooth inner and outer surfaces. Due to its size is easily palletized.

DIMENSIONS

Capacity:	31 l
Internal dimensions:	358x256x316 mm
External dimensions:	400x300x333 mm
Weight:	2,17 kg
Dimensional tolerances:	± 3%

GENERAL FEATURES

Semi transparent:	No
Colour:	Grey
Load capacity	-
Stackable load	-
Dynamic load	-
Temperature range:	-10°C / +95°C
Autoclavable:	No
Sterilizable:	By radiation
Conformity with standards:	-
Food contact compliance:	The product is suitable for food contact. It meets meet regulatory requirements of 1935/2004/CE, UE 10/2011 and following amendmends.

Item code PL 693**PACKAGING**

Pieces per bag (MOQ):	1		
Pieces per box:	-		
Pieces per pallet	48	Pallet dimensions	80x120x220 cm

REMARKS / OPTIONAL ACCESSORIES

-

CHEMICAL COMPATIBILITY

Products manufactured by polyethylene or polypropylene are normally suitable for room-temperature contact with many organic solvents, diluted solutions of acids, bases and salts. They are typically not suitable for use with concentrated oxidizing acids and halogenated solvents. Detailed information on physical properties and chemical resistance (including concentration and temperature effect) are available upon request.

Several factors however may effect chemical compatibility such as temperature, concentration, contact time, presence of internal stress, wall/film thickness. The user is advised to carry out its own tests to determine product suitability for the particular environment/application.

STORAGE CONDITIONS

Product should be stored in its original packaging and kept dry at all times. Regular inspections of shipping box and shipping pallet are recommended. Storage area should be clean and dry. Never expose product to direct sunlight.

Optimum storage temperature is between 10°C and 30°C, 20% to 80% RH

Avoid prolonged storage at extreme temperature. Do not exceed the following limits: -10°C / +40°C
