

Supply your lab with your favorite Corning Lab Essentials

You rely on your lab essentials to perform as promised—to help you deliver consistent, reproducible results at every stage of development. That's why it's so important to choose quality lab products for your cell culture and liquid handling needs from a partner you can trust. Corning works with you right from the start to understand your science and your processes. We provide expert service and technical support to help you achieve your scientific goals—with confidence.

Corning products are included in Avantor's Environmentally Preferable Products (EPP) program, designed to provide greater transparency into product sustainability attributes. This allows you to make more informed and sustainable purchasing decisions.
