

The NSW-603BK/C storage tower is an ideal choice for your storage needs. Made entirely of polypropylene, it offers high resistance to impacts, chemicals, and temperature variations.

This drawer unit is part of our «POLYBOX Storage Drawer Trolleys» range and stands out for its size. With a width of 600 mm and a height of 590 mm, it offers generous storage space. The three perfectly transparent polypropylene drawers allow for easy visualization of the contents.

For easy handling, the drawer unit is equipped with four multidirectional casters. These casters ensure excellent maneuverability on all types of floors, allowing the drawer unit to be moved with ease.

PRODUCT ADVANTAGES

- **Transparent** : perfect transparency of the drawers.
- **Secure** : lid reinforced with a metal bar capable of supporting up to 100 kg.
- **Practical** : large continuous handles for comfortable opening and closing of drawers, and presence of stoppers.
- **Durable** : made of polypropylene for resistance to dust, impacts, and temperature variations.
- **Maneuverable** : includes swivel casters to be self-assembled for easy movement of the storage tower.
