TECHNICAL DATA SHEET

ELTEN ARTISAN LEVEL 1-3 – NO. 204153 / 204154 / 204155 **SIZE: 36 - 48**

PRODUCTDETAILS

Article description	Full-length inlay sole
Features	■ ESD FEATURES: Protection against electrostatic discharge (ESD). The full-surface, replaceable insole is conductive and designed for use in ESD safety shoes in accordance with the DIN EN ISO 20345 and DIN EN 61340-5-1 standards. ■ Full- length insole in three different heights to optimise the fit ■ The insole has a good moisture absorption and release function and thus ensures a pleasant foot climate. ■ The open-cell structure of the PU foam improves the shoe climate. This keeps the foot consistently dry. ■ The extremely soft PU foam absorbs shocks when walking and increases walking comfort. ■ The full- length, replaceable insole offers maximum comfort for safety shoes.

AREAS OF USE

Insole suitable for the product groups	■ WELLMAXX GRIP ■ WELLMAXX SAFETY GRIP ■ WELLMAXX TRAINERS ■ WELLMAXX L10 ■ SAFETY-GRIP ■ TRAINERS ■ L10
	■ LEVEL 1: Significantly more comfort for wide feet.
	■ LEVEL 2: Provides comfortable cushioning for averagely wide feet.
	■ LEVEL 3: Effective shock absorption and more support for slim feet.
