

With external dimensions of 396 x 378 x H185 mm, the transparent polypropylene plastic box BASICBOX CLC-L is ideal for storing and transporting various components. Thanks to this plastic material, it is highly resistant to temperature fluctuations and chemicals.

This model is equipped with a snap-on lid that securely attaches to the box, preventing accidental removal.

This multi-purpose box is suitable for professionals seeking solutions for the storage and transport of components.

PRODUCT ADVANTAGES

- **Secure** : The box's lid ensures constant protection of the contents, safeguarding products from dust, moisture, and other external contaminants.
- **Practical** : Its transparency makes it ideal for storing a variety of products, making it versatile for multiple applications, whether for storage or transport.
- **Durable** : Made of polypropylene, it is resistant to temperature variations, moisture, and impacts.
- **Hygienic** : The solid and smooth walls allow for quick drainage of liquids.
