

Technical Data Sheet

VWR® Centrifuge Tubes

Description: Centrifuge Tubes with Flat or Plug Cap, Sterilized/Non-Sterilized

Purpose: Centrifuge tubes are popular in samples centrifuging or storage in many research area

Materials

Tube: PP (Polypropylene), Compliance with USP Class VI Color: Clear

Cap: HDPE (High-density Polyethylene), Compliance with USP Class VI

Rack: Paper

Color: White

Dimensions (Unit: mm)

Features

- Easy-to-read black graduations in $\pm 2\%$ increments
- Contains a large, white frosted writing area
- Autoclavable at 121°C and freezable to -80°C
- Meet the requirements of BSE/TSE
- Latex Statement: This product is latex free
- Meet the requirements of RoHS
- Leak-proof
- DNase/RNase free and Non-pyrogenic
- Sterilized by irradiation SAL 10^{-6} (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 clean room environment
- Manufactured under ISO13485 and ISO9001 quality management system
- During the freezing process, it is better to use plastic rack
- During high-speed centrifugation, it is better to use suitable rotor adapters

Technical Data Sheet

Dimensions (Unit: mm)

VWR® Light Sensitive Centrifuge Tubes

Description: Light Sensitive Centrifuge Tubes with Plug Cap, Sterilized/Non-Sterilized

Purpose: Centrifuge tubes are popular in samples centrifuging or storage in many research area

Materials

Tube: PP (Polypropylene), Compliance with USP Class VI Color: Amber
 Cap: HDPE (High-density Polyethylene), Compliance with USP Class VI Color: White
 Rack: Paper Color: White

Features

- Easy-to-read black graduations in $\pm 2\%$ increments
- Contains a large, white frosted writing area
- Autoclavable at 121°C and freezable to -80°C
- Meet the requirements of BSE/TSE
- Latex Statement: This product is latex free
- Meet the requirements of RoHS
- Leak-proof
- Block UV Lighting
- Blocks 99% of light with wavelength less than 550 nm
- DNase/RNase free and Non-pyrogenic
- Sterilized by irradiation SAL 10^{-6} (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 clean room environment
- Manufactured under ISO13485 and ISO9001 quality management system
- During the freezing process, it is better to use plastic rack
- During high-speed centrifugation, it is better to use suitable rotor adapters

Technical Data Sheet

VWR® Metal-Free Centrifuge Tubes

Description: Metal-Free Centrifuge Tubes with Flat Cap, Sterilized

Purpose: Centrifuge tubes are popular in samples centrifuging or storage in many research area

Materials

Tube: PP (Polypropylene), Compliance with USP Class VI Color: Clear
 Cap: HDPE (High-density Polyethylene), Compliance with USP Class VI Color: Natural
 Rack: Paper Color: White

Features

- Easy-to-read black graduations in $\pm 2\%$ increments
- Contains a large, white frosted writing area
- Autoclavable at 121°C and freezable to -80°C
- Meet the requirements of BSE/TSE
- Latex Statement: This product is latex free
- Meet the requirements of RoHS
- Leak-proof
- DNase/RNase free and Non-pyrogenic
- Tubes are certified free of major critical trace metals to less than 1ppb ($\mu\text{g/kg}$)
- Sterilized by irradiation SAL 10^{-6} (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 clean room environment
- Manufactured under ISO13485 and ISO9001 quality management system
- During the freezing process, it is better to use plastic rack
- During high-speed centrifugation, it is better to use suitable rotor adapters

Technical Data Sheet

VWR® 15mL Polystyrene(PS) Centrifuge Tube

Description: 15mL PS Centrifuge Tubes with Flat Cap, Sterilized/Non-Sterilized

Purpose: Centrifuge tubes are popular in samples centrifuging or storage in many research area

Materials

Tube: PS (Polystyrene), Compliance with USP Class VI

Color: Clear

Cap: HDPE (High-density Polyethylene), Compliance with USP Class VI

Color: White

Gasket: PE (Polyethylene)

Color: White

Rack: Paper

Color: White

Dimensions (Unit: mm)

Features

- Molded graduations stand out distinctly on these optically clear polystyrene tubes
- Colorless and transparent are perfect for biological reaction experiments
- Meet the requirements of BSE/TSE
- Latex Statement: This product is latex free
- Meet the requirements of RoHS
- Leak-proof
- DNase/RNase free and Non-pyrogenic
- Sterilized by irradiation SAL 10⁻⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 clean room environment
- Manufactured under ISO13485 and ISO9001 quality management system
- During the freezing process, it is better to use plastic rack
- During high-speed centrifugation, it is better to use suitable rotor adapters

Plastic Rack for 15mL Centrifuge Tube

Plastic Rack for 50mL Centrifuge Tube

VWR® Plastic Rack for Centrifuge Tubes

Description: Plastic Rack for Centrifuge Tubes, Sterilized

Purpose: Use for supporting tubes during chemical reactions or when storing

Materials

Plastic Rack: PP (Polypropylene), Compliance with USP Class VI

Features

- Suitable for 15mL, 50mL conical bottom centrifuge tubes
- Autoclavable at 121°C and freezable to -80°C
- Meet the requirements of BSE/TSE
- Latex Statement: This product is latex free
- Meet the requirements of RoHS
- Rack marked with numbers (1-25) for identification
- Angular at one end to stack up easily
- Rack can be washed and reused
- DNase/RNase free and Non-pyrogenic
- Sterilized by irradiation SAL 10⁻⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 clean room environment
- Manufactured under ISO13485 and ISO9001 quality management system
