

Materials Included in this Kit:

Biology

From the highest quality living and preserved specimens to the widest selection of media, microscope slides, and more, we have more options for your biology classroom than anywhere else.

The Functioning Wall Mounted Discover Headwall Packages simulate oxygen, air and suction with one source of air by connecting to an external air compressor. This solution is thousands of dollars less than a traditional centralized system with air, oxygen, and vacuum.

- Discover sizes available: 36", 48", 60", 72" and 84"
- Wall mounted: Mounting strip included
- Nurse call facade with code blue button and hand pendant
- Includes Silent Air compressor (Available without compressor upon request)
- Includes complete accessories package: oxygen and air flow meters, humidifiers, nasal cannulas, analog vacuum regulator, suction collection canister and ring holder
