

PEPEROMIA

Grow your reptile, amphibian, or invertebrate jungle with ReptiFauna™ tropical plants.

These plants are perfect for naturally enhancing your animal habitat and are easy to care for.

Origin: Central & South America

Care Level: Beginner

Light: Partially Shaded

Humidity: Moderate 30-70%

Environment: Tropical

Placement: Background

Water Frequency: Weekly

Growth Rate: Moderate

HUMIDITY:

TIPS:

- Sagging or floppy leaves can indicate the plant needs more water.
- Water only when the top two inches of substrate is dry.
- Can tolerate a variety of lighting except intense direct.

TO GET STARTED:

- Prepare the substrate by digging a small two inch hole to accommodate the plant
- Remove the plant from the pot being careful to not damage the roots
- Gently remove as much substrate from the plant and discard in the substrate in the trash
- Lightly rinse the plant under de-chlorinated room temperature, or distilled water
- Place the plant in the hole in the substrate
- Fill in the open areas in the hole with substrate until it covers just up to the base of the plant
- Gently smooth out the substrate
- Water according to care directions below, always using room temperature water
