

SAFE-HANDLE bottle carriers

**Safety, quality
and value.**

Glass bottles are great - clean, dependable liquid containers, but when they break, there is the mixed hazard of broken glass and the potentially hazardous bottle contents to deal with.

The new SAFE-HANDLE bottle carrier from VWR contains any breakages, protecting people and property from both broken glass shards and limiting exposure to flammable, corrosive or other dangerous liquids.

SAFE-HANDLE bottle carriers

(Cat. No. 215-3582)

- Minimises spills and prevents breakage
- Meets secondary containment requirements
- Easy mechanism
- Environmentally friendly
- No effect on product quality

Easy steps to greater lab safety
