

## Certificate of Conformity

# VWR SAFETY SPECTACLE ROME 111-1842

VWR International certifies that the products specified conform to all specifications and quality criteria mentioned in this document.

*VWR International certifie que les produits mentionnés respectent toutes les spécifications et critères de qualité mentionnés dans ce document.*

VWR International bestätigt hiermit, daß die angegebenen Produkte alle in diesem Dokument erwähnten Spezifikationen und Qualitätskriterien erfüllen.

### Intended use

|                         |
|-------------------------|
| General laboratory uses |
| General Safety          |

### Specifications

|                                |                                                                |
|--------------------------------|----------------------------------------------------------------|
| Lens material                  | Polycarbonate                                                  |
| Lens style                     | Single Piece                                                   |
| Lens thickness                 | 2.0mm                                                          |
| Lens coating                   | Anti-fog and Anti-scratch                                      |
| Lens tint                      | Clear                                                          |
| Frame/Temple material          | Cobalt Blue Nylon Temple + PVC Comfort Pad + Grey PVC Nose Pad |
| Screw material                 | Stainless Steel                                                |
| Spectacle weight               | 23.9 grams                                                     |
| Overall Width (hinge to hinge) | 135 mm                                                         |
| Overall Length (lens to tips)  | 150 mm                                                         |

|                                                                             |     |
|-----------------------------------------------------------------------------|-----|
| Optical Class                                                               | 1   |
| Low Energy Impact (45m/s)                                                   | F   |
| Resistance to high speed particles at extremes of temperature -5°C to +55°C | T   |
| UV Filter under EN 170                                                      | 2   |
| Shade of the lens (clear lens)                                              | 1.2 |
