According to our suppliers for raw materials – such as plastics, colourants and additives – we can confirm the compliance with the following guidelines:

**EC Regulation 1935/2004 "Materials and articles intended to come into contact with food":**
The colourants, polymers and additives used to produce this product comply with this regulation.

**EC Regulation 10/2011 "Plastic materials and articles intended to come into contact with food":**
The materials comply with the relevant requirements of the regulation dated January 14th, 2011. The monomers and additives used to produce this product are listed in the associated Union List of Authorized Substances.

**BfR** (Bundesinstitut für Risikobewertung der Bundesrepublik Deutschland) **Recommendation:**
Colourants and additives used meet the purity criteria of the recommendation IX of the „German Authorities for consumers' health protection".

**Directive 94/62/EC "Packaging and waste packaging":**
The materials used fulfil the requirements of Directive 94/62/EC, which limits the total content of heavy metals to max. 100 ppm (Cd, Pb, Hg, Cr (VI)) as well as the requirements regarding usability of waste packaging.

**EC Regulation 1223/2009 "Cosmetic products":**
Compliance with this regulation is fulfilled.

**Information regarding migration:**
The compliance with migration values can only be determined at the finished product, as the migration arises out of polymer, colourant, additive used together with the filled goods.

Zell/Mosel, 15.04.2019
