Ansell

GAMMEX® Latex Micro

SURGICAL GLOVES

Latex, powder-free surgical gloves offering exceptional tactile sensitivity and dexterity

- **Heightened dexterity and tactile sensitivity:** Made 15% thinner than Ansell's standard latex surgical gloves, for greater surgical finesse, these sterile GAMMEX® gloves deliver exceptional precision when performing delicate procedures
- **Elevated ergonomic comfort:** Ansell's unique anatomic glove formers deliver surgical gloves designed for enhanced comfort and movement to help reduce hand fatigue
- **Effortless donning and doffing:** A unique internal coating made possible by Ansell's donning aid technology enables easy donning and doffing under dry or damp hand conditions, be it the first don or during intra-operative procedures

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- All surgeries, especially delicate procedures in ophthalmology, micro, and cardiovascular
- Enhanced tactile sensitivity and dexterity, especially for delicate procedures
- Damp donning
- Prevention of eye fatigue

FEATURED TECHNOLOGIES

A.R.T™ Pinhole Barrier Technology

DERMASHIELD™ Donning Aid Technology

GAMMEX®
Innovation that Protects

Driven by innovation, GAMMEX® surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.
