Product Certificate

Letter of confirmation

Order No.	1000178
Description	**Potassium chloride solution 3 mol/l** 3 N solution
Batch No.	1789069
Min shelf life	20. Jan. 2020
Ingredients	Potassium chloride Water, pure (conductivity < 1 µS/cm)
Titer (20 °C)	1,0000 +/- 0,2 % (corresponds to 0,9980 - 1,0020)
Analytical method	Potentiometric titration with standard silver nitrate solution / silver electrode
Reference substance	Indirectly sodium
Found Titer	0,9993

The reference substance is a secondary reference material traceable to standard reference material from NIST.

Our quality management system guarantees the specifications above. References to pharmacopoeia / official institutions were limited to the given analysis data, levels and limits, but do not refer to its requirements for the manufacturing method of medicinal products. Our chemicals are not intended to be used as basic material for medicinal products, food, feeding stuffs, medical devices, biocides, cosmetic products and article of daily use.
