Items: Glass columns

Lenz Laborglas GmbH & Co. KG is a manufacturer of laboratory glassware.

For the manufacturing of our products we only use DURAN glass or borosilicate glass 3.3.

DURAN glass or borosilicate glass 3.3 consists of pure raw material of inorganic origin. No materials of animal origin are used during the manufacturing process.

The glass manufacturing process involves melting at temperatures of at least 1.500 °C for several ours. All biological substances are destroyed during production and no BSE/TSE causal organism are contained in the finished products.
