LA MEILLEURE FAÇON DE RANGER

SKU : MULC901379

STACKABLE BIN - BLUE - 170X100X80 MM

Model : MLT

The MLT series of plastic spout bins are versatile storage solutions designed to optimise storage and facilitate stock management in a variety of professional environments. Made from polypropylene, these bins have a front opening for quick identification of contents and easy handling of stored products.

The bins can be stacked to save space. They fit neatly onto standard worktops and shelves, increasing their flexibility of use.

Their non-deformable structure ensures exceptional robustness, making them shock-resistant and suitable for intensive use in a variety of professional environments. Their ergonomic design makes it easy to handle the products stored, contributing to the efficiency of picking and storage operations.

PRODUCT ADVANTAGES

- **Monobloc construction :** Made from a single piece, this design ensures unparalleled reliability.
- **Stackable :** Its clever design allows the container to be stably stacked with other models, optimizing the use of available space in your professional environment.
- **Durable :** This container not only resists shocks but also chemicals and temperature variations.
- **Easy identification :** The presence of a label holder allows for quick identification of products.
