

Certificate of Compliance

We hereby certify that to the best of our knowledge, the instruments listed below meet or exceed the specifications stated in the appropriate instruction manuals. All instruments are calibrated at the factory following completion of production. FLIR Commercial Systems, Inc., an ISO 9001:2015 certified company, inspects its incoming shipments using an approved sampling plan with an AQL. All incoming inspections are performed using test equipment that is traceable to National Standards. FLIR Systems Inc. is a USA based company with manufacturing facilities in China, Taiwan, Korea, Estonia, Sweden and the United States.
