

These solid-wall white polyethylene bins are a reliable and hygienic solution for storing and handling samples, instruments, or consumables in laboratory environments.

Designed for frequent use, they feature closed handles with rounded edges for safe handling, and smooth inner surfaces that ensure quick, residue-free cleaning. Their abrasion resistance supports intensive use, while their stackable design optimizes space in storage areas or lab benches.

Food-grade compliant and suitable for various temperature conditions, they are available in three sizes to fit diverse laboratory workflows.

PRODUCT ADVANTAGES

- **Made from white polyethylene** : Durable and visually neutral for all professional environments.
- **Safe stackability** : Saves space during storage or transport.
- **Smooth interior walls** : Quick cleaning and enhanced hygiene, even under intensive use.
- **Thermal resistance** : Suitable for use across a wide range of temperatures.
- **Multipurpose use** : Ideal for food, industrial, logistics, or laboratory sectors.

SPECIFICATIONS

Product Code	9276000000
External Dimensions	668 x 452 x 403 mm
Wall / Base Type	Solid / Solid
Number of Handles	2
Handle Type	Closed
Weight	3.69 kg
Material	Polyethylene
Stackable	Yes
Recyclable	Yes
Food Grade	Yes
Operating Temperature	-10°C / +50°C
Color	White
Shipping Time	15 business days
Country of Origin	France
