

Instruments and Tools Included in this Kit:

Biology

From the highest quality living and preserved specimens to the widest selection of media, microscope slides, and more, we have more options for your biology classroom than anywhere else.

Covid-19 Modeling

Covid-19 Antibody Test Model

Covid-19 Life Cycle Model

Covid-19 Structure Model

Covid-19 DNA Test Model

Microorganisms Modeling

Amoeba Model

Euglena Model

Bacteria Model

Paramecium Model

Cells Modeling

Chloroplast Model

Photosynthesis Model

Cell Membrane Model

Cell Nucleus Model

DNA Structure Model

Plant Cell Model

Animal Cell Model

Anatomy Modeling

Digestive System Model

Brain Model

Ear Model

Eye Model

Heart Model

Immune System Model

Liver /Spleen Model

Lungs Model

Skin Model

Antibodies Model

DNA Modeling

DNA Replication Model

DNA Structure Model

Transcription Model

Translation / Protein Model

CRISPR

Model

Gene Cloning Model

Geology Modeling

Earthquakes Model

Minerals Model

Rock Cycle Model

Earth Structure Model

Tectonic Plates Model

Volcano Model

Water Cycle Model
