Description

The stainless steel workbench with solid undershelf from Teknomek is a great choice for organising and accessing equipment in sterile and hygienic environments.

With a fully welded 304-grade stainless steel build and brushed polish finish, this stainless steel workbench has solid single undershelf, and adjustable feet with non-marking rubber base.

This workbench with solid undershelf is also available in 316-grade stainless steel.

The stainless steel workbench with solid undershelf is available in various widths, choose from 600, 900, 1200, 1500 and 1800 mm. The tabletop and undershelf has a distance of 600 mm in between making it great for storage. The overall height of the stainless steel workbench is 840 mm and has floor clearance of 155 mm which gives easy access for cleaning.

Do you need a higher and even more hygienic workbench? Add our hygienic foot to your basket and raise your workbench up to 940mm while protecting the thread from dirt!
