The product described above was manufactured in accordance with current design specifications and current production processes and have met all Quality Assurance Criteria. This product has been manufactured according to the U.S. Code of Federal Regulations, Title 21, section 820 and Quality System Regulation for Medical Devices, ISO 13485, where applicable.

If the item referenced above is not a Medline brand name item, Medline did not manufacture the item and is acting as a distributor only. Therefore, a certificate of conformance would need to be obtained from the manufacturer directly. Medline does certify that any non-Medline brand, distributed items on this certificate have been stored in a licensed Medical Supply distribution center, under appropriate conditions according to the manufacturers labeled requirements.

Material and process traceability and inspection records relating to the above product are on file at the site of manufacture. Items labeled sterile have been processed in a validated sterilization cycle and meet all claims of sterility in an unopened, undamaged packages. If the labeling states that the product was sterilized using ethylene oxide, the process is validated to achieve a *minimum sterility assurance level (SAL) of 10^{-6}* .

Please feel free to contact our Corporate Quality Department if you have any questions or need additional information. The toll-free number is 1-800-950-0128 or the email is DBQCertRequest@medline.com.

Sincerely,
