PRODUCT DATASHEET

Cleanroom wiper Serie 6000

Description
Serie 6000 wipers are sealed-border, 2-ply quilted, double-knit wipers, constructed from continuous polyester filament.
They are the ideal solution for all the surface cleaning applications in class 1 / ISO 3 cleanrooms that require very low levels of fibers and particles, a good mechanical resistance, and a very high absorption capacity.

Technical data

Material :	100% polyester	
Weight :	220 g/m²	
Absorption capacity :	690 ml/m²	*IEST-RP-CC 004.3*

Cleanliness levels

Non Volatile Residues (NVR)		*IEST-RP-CC 004.3*
Extractibles IPA	< 0.033 g/m²	
Extractibles DIW	< 0.066 g/m²	
Ionic contamination		*IEST-RP-CC 004.3*
Sodium (Na^+)	< 0.3 ppm	
Chloride (Cl^-)	< 0.3 ppm	
Potassium (K^+)	< 0.3 ppm	
Calcium (Ca^{2+})	< 1.5 ppm	
Releasable particles		*IEST-RP-CC 004.3*
LPC (Liquid Particle Count) ≥0.5µm	1.56 x 10^6 particles / m²	

Packaging
Double polyethylene vacuum bag

Item	Presentation	Format	Pieces / Bag	Bags / Case
123035	Stacked	9" x 9" (23x23cm)	2 x 50	10
123036	Bulk	9" x 9" (23x23cm)	2 x 50	10
