Resolve to recycle the right way

Kimberly-Clark PROFESSIONAL* | Exceptional Workplaces*

Introducing the RIGHTCYCLE* Program by KIMBERLY-CLARK PROFESSIONAL*

Your company needs an effective solution to mitigate waste and help you reach your Corporate Social Responsibility (CSR) and Sustainability goals. But what's the best solution for your business? RIGHTCYCLE* by KIMBERLY-CLARK PROFESSIONAL*.

We've resolved the recycling process – beyond downcycling, upcycling and other ideas – with the right way to recycle. RIGHTCYCLE* makes it easy to recycle previously hard-to-recycle products like cleanroom garments and gloves. Now the garments and gloves used in your facility can be turned into a variety of useful, eco-friendly products. RIGHTCYCLE* is good for your business and good for the planet.

Simple, efficient, responsible

With the RIGHTCYCLE* program, it's easy to do the right thing today:

1 Your Kimberly-Clark Account Manager will meet with you to review the RIGHTCYCLE* program and learn more about your waste streams.

2 Place an order for the RIGHTCYCLE* program with your single-use garment or nitrile glove distributor.

3 Sign up online for the RIGHTCYCLE* program through our recycling partner's website: www.terracycle.com

4 Collect garments or gloves in the RIGHTCYCLE* collection boxes or use your own boxes.

5 Close the boxes and assemble onto a pallet.

6 Once the pallet is full, email our recycling partner kimtechsolutions@terracycle.com to arrange pick-up and return shipment.

The RIGHTCYCLE* Made Easy Program for Garments or Gloves

- Use your own collection boxes and pallet.

  Pallet should be standard size (48" x 40") with a maximum height of 96" (maximum weight - 1,000 lbs.).

Choose the RIGHTCYCLE* solution. Don't waste another day!

If you currently use garments that require laundering, you might be concerned about cross-contamination at the laundry facility or reduced protection properties due to repetitious garment processing. The RIGHTCYCLE* program provides a convenient solution for using single-use garments that are clean for every use and a "waste-free" solution for recycling those garments.

## The RIGHTCYCLE* process from distributor to park bench

Product is worn in your facility

Waste is collected on site from each collection point

Materials are integrated into new eco-friendly products

Waste is sorted and processed at recycling partner

Reduce Today, Respect Tomorrow* is the KIMBERLY-CLARK PROFESSIONAL* approach to sustainability. It begins with the understanding that the way we use resources today shapes the world of tomorrow. And it has led us to focus on reducing consumption at every stage of the product lifecycle – from design and manufacture to distribution and disposal. Reduction is the key to lowering the environmental impact of our activities as well as those of customers. To learn more, visit **www.kcpreducetoday.com/us.**

Reduce Today Respect Tomorrow

About TerraCycle

TerraCycle's purpose is to eliminate the idea of waste by creating national recycling systems for previously non-recyclable or hard-to-recycle waste. TerraCycle then converts the collected waste into a wide variety of products and materials. With more than 20 million people collecting waste in 17 countries TerraCycle has diverted billions of units of waste and used them to create more than 1,500 different products available at major retailers ranging from Walmart to Whole Foods Market. Founded in 2001, TerraCycle has grown into one of the fastest-growing green companies in the world.
