

## Laminate Benches specifications

### Laminate Bench Construction:

18" height laminate benches are constructed using 1" dual-sided thermal-fused laminate in five standard colors for legs, apron and top. Edges are finished using matching 3mm PVC.

Each unit incorporates two modesty panels, screw-in leveler glides and is factory assembled using dowel construction.

### Laminate Bench with ButcherBlock Seat Construction:

Same construction as the laminate bench in black thermal-fused laminate and matching 3mm PVC edge banding. Model includes a 1-1/4" hardwood butcher block seat with radius all edges for comfort and two-coats catalyzed lacquer.

### Dimensions:

Height: 18"  
Depth: 15", 20", 24"  
Length: 24", 36", 48"

### Shipping Class:

125
