

MDF-DU503VHA-PA | 76637-148

## VIP ® ECO SMART

**ENERGY STAR® Certified** Natural Refrigerant -86°C Freezer

Independently tested and documented, the ENERGY STAR® Certified VIP® ECO SMART delivers the lowest daily energy usage of any ultra-low

temperature uniformity and stability required for the life sciences.

temperature freezer of its size: 4.99 kWh per day<sup>1</sup>. Purpose-designed for the

**Innovator Since 1966** 

MDF-DU503VH-PA, 220V | 76637-150 MDF-DU503VHA-PA, 115V | 76637-148

18.6 cu.ft. | 528 L

# **Performance**

Next generation engineering harnesses the power of inverter compressor technology to yield greater temperature uniformity. Reserve refrigeration power delivers fast temperature recovery following door openings. Performance and reliability is never compromised when it comes to storing your valued products.

# and Reliability

#### **Frost Mitigation**

Simplified one-handed operation maintains the integrity of the door seal to assure energy efficiency, resulting in less frost build up and maintenance. Perimeter heater under the gasket allows for gentle warmth reducing ice buildup. The EZlatch handle is the centerpiece of a holistic access and frost mitigation system.

#### Efficient Energy Consumption<sup>1</sup>

This freezer delivers lower energy consumption without compromising performance. The VIP ECO SMART uses 30% less energy than other leading **ENERGY STAR listed freezers.** 

- 0.27 kWh/cu.ft. Daily Energy Consumption
- 4.99 kWh/day, Steady State at -80°C
- 4.06 kWh/day, Steady State at -70°C

**Temperature Uniformity** 

- ±3.0°C at -80°C
- ±3.0°C at -70°C

#### **Security Control** and Monitoring

An eye level, door mounted 10.1-inch high resolution LCD touchscreen allows full user control. A USB port makes transferring logged data to a PC convenient. All performance attributes are displayed and an internal temperature log can be expressed in graphic form over time.

#### **Natural Refrigerants**

Natural refrigerants minimize environmental impact and allow for greater efficiency, resulting in less energy consumption and less heat output.

#### **Controlled Freezer Access**

Know who entered the freezer and when. Track how long the door was open.

- 3 Ways to Lock
- Facial recognition
- Keypad
- Proximity card (Optional)\*

\*Available in the US and Canada only

#### **SMART Performance**

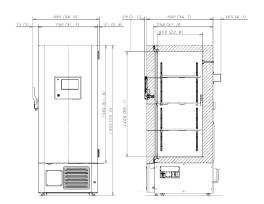

Inverter driven compressors with SMART control allow for superior uniformity by only running compressors at slower speed under steady state conditions. Proprietary algorithms give the control that allows extremely tight uniformity.

#### **Temperature Uniformity Data:**

**Dimensions**
