 SUPPORT & SERVICE

Cells choose Avantor Seradigm

Cell culture experts everywhere are discovering how well their cells thrive on nutritionally superior sera from Avantor Seradigm, making it the fastest growing, global sera brand in the market. Seradigm's unique collection and manufacturing techniques preserve more of the naturally-occurring growth factors in sera that cells require to thrive. Our proven track record for performance and consistency enables sera users to switch to a brand that yields more of the results they seek — no matter the application, scale, or budget.

Contact us today and we'll help you discover why cells choose Avantor Seradigm.

PRODUCT FEATURES*

- More nutritionally rich sera due to the preservation of performance-enhancing factors
- Superior product performance, quality, traceability, and lot-to-lot consistency
- Quality you can see crystal clear sera, vibrant amber color, and absence of turbidity and flocculent matter
- Bottle-to-bottle consistency within lots through proprietary, whole-lot homogenization technology
- Low levels of endotoxin and hemoglobin as indicators of overall product quality

*Some features do not apply to BCS.

Avantor Seradigm Fetal Bovine Sera (FBS) and FBS Alternatives

ULTIMATE GRADE FETAL BOVINE SERUM (FBS)

Ultimate Grade FBS is the ultimate in product quality and viral safety, undergoing additional BVD virus testing using qPCR technology. Proprietary collection and production techniques provide additional features that elevate product quality, enhance traceability, and improve regulatory compliance. Ultimate Grade FBS is 100% US origin.

Process	Size, mL	Cat. No.	Unit
None	50	89510-198	Each
Heat-Inactivated	50	89510-200	Each
None	500	97068-101	Each
Heat-Inactivated	500	97068-107	Each

Gamma irradiation available upon request.

PREMIUM GRADE FETAL BOVINE SERUM (FBS)

Premium Grade FBS is widely used by cell culturists requiring high quality, high performance FBS for a variety of applications. Proprietary manufacturing technology preserves performance-enhancing factors for consistent results. Premium Grade FBS is 100% US origin.

Process	Size, mL	Cat. No.	Unit
None	50	89510-194	Each
Heat-Inactivated	50	89510-196	Each
None	500	97068-085	Each
Heat-Inactivated	500	97068-091	Each

Gamma irradiation available upon request.

USDA APPROVED ORIGIN FETAL BOVINE ORIGIN (FBS)

USDA Approved Origin FBS is an affordable, quality product that provides consistent performance for use in cost-sensitive applications. USDA Approved Origin FBS is sourced from Mexico and countries in Central America.

Process	Size, mL	Cat. No.	Unit
None	50	89510-182	Each
Heat Inactivated	50	89510-184	Each
None	500	89510-186	Each
Heat Inactivated	500	89510-188	Each

Check availability of this product in your country.

ULTRA LOW IgG FETAL BOVINE SERUM (FBS)

Ultra Low IgG FBS is purified of immunoglobulin (IgG) using a chromatographic process that delivers significantly reduced levels of IgG (\leq 5µg/mL). Ultra low IgG FBS is ideal for cell culture and protein purification applications where naturally occurring levels of IgG are too high. Ultra Low IgG FBS is 100% US origin.

Process	Size, mL	Cat. No.	Unit
None	50	10018-828	Each
Heat-Inactivated	50	10018-832	Each
None	500	10018-826	Each
Heat-Inactivated	500	10018-830	Each

Gamma irradiation available upon request.

FB ESSENCE

FB Essence is a nutritionally rich, cost-effective alternative to Fetal Bovine Serum (FBS) and is proven effective across a broad range of cell types and origins, including both suspension and adherent cell types and recognized finicky cell lines. FB Essence contains FBS, Bovine Calf Serum, Equine Serum, and a proprietary blend of supplements, vitamins, minerals, and growth factors. FB Essence is 100% US Origin.

Process	Size, mL	Cat. No.	Unit
None	50	10805-184	Each
Heat Inactivated	50	10799-384	Each
None	500	10803-034	Each
Heat Inactivated	500	10799-390	Each

Gamma Irradiation available upon request.

IRON SUPPLEMENTED BOVINE CALF SERUM (BCS)

Iron Supplemented Bovine Calf Serum is sourced from animals aged up to six months and raised on a diet consisting mainly of formula. Due to their unique diet, source animals have naturally high levels of transferrin. When the serum is supplemented with iron, the iron binds to the unbound transferrin, resulting in a product with three to four times the amount of available iron compared to FBS or equine serum. This product is an excellent, cost-effective alternative to FBS and often performs as well as FBS in many established cell lines. In some applications, it even out-performs FBS and equine serum. Iron Supplemented Bovine Calf Serum is 100% US Origin.

Process	Size, mL	Cat. No.	Unit	
None	50	10158-360	Each	
None	500	10158-358	Each	
None	1000	10153-134	Each	
Gamma Irradiated*	1000	10153-136	Each	

Gamma irradiated at a minimum of 25kGy. Check availability of this product in your country.

[†]International Serum Industry Association (serumindustry.org)

ISIA Certified Traceability

The International Serum Industry Association (ISIA) has established industry standards to aid sera users in substantiating the traceability of serum products. The ISIA has implemented a rigid program of independent audits to verify compliance with traceability standards. ISIA Traceability Certification is awarded to those that demonstrate full compliance with ISIA guidelines and are the subject of a successful audit. Further, the ISIA has established strict guidelines for product quality testing and reporting on documents like Certificates of Analysis (CoA). Sera users should source exclusively from ISIA-certified companies to ensure traceability.

^{**} The care and attention devoted to the manufacture of our sera generates final test results that are substantially lower than set specifications. See lot-specific Certificates of Analysis for actual test results.

Setting science in motion to create a better world

We are the trusted global partner to customers in the life sciences, advanced technologies industries, and applied material. From breakthrough discovery to agile delivery, we offer an extensive portfolio of mission-critical products, services, and solutions.

VWR, part of Avantor, provides an integrated, seamless purchasing experience optimized for your success.
