

Licensing statements

General

2-D Fluorescence Difference Gel Electrophoresis

For 2-D Fluorescence Difference Gel Electrophoresis (2-D DIGE) technology is covered by US patent number 7,566,544 and equivalent patents in other countries and exclusively licensed from Carnegie Mellon University. The purchase of CyDye™ DIGE Fluors includes a limited license to use the CyDye DIGE Fluors for internal research and development, but not for any commercial purposes. A license to use the CyDye DIGE Fluors for commercial purposes is subject to a separate license agreement with Cytiva.

ÄKTA™ oligopilot and OligoPilot™ 400

ÄKTA oligopilot and OligoPilot 400 post-synthesis procedures for selective deprotection of oligonucleotides on solid supports is covered by US patent number 6,887,990 and equivalent patents and patent applications in other countries, and a license thereto is only given when synthesis of oligonucleotides is performed on Cytiva instruments. No other license is granted to the purchaser either directly or by implication, estoppel or

ÄKTA ready High Flow Kit and ÄKTA ready Low Flow Kit

The use of ÄKTA ready High Flow Kit and Low Flow Kit may require a license under the following US patents and their equivalents in other countries: US patent numbers 6,712,963 and 7,052,603 (assignee: Parker-Hannifin Corporation.). A free, non-transferable license limited to using these products under above mentioned patents accompanies the purchase of the product from Cytiva and its licensed distributors.

ÄKTA readyflux™ Flow Kit

The use of ÄKTA readyflux Flow Kits may require a license under the following US patents and their equivalents in other countries: US patent numbers 6,712,963 and 7,052,603 (assignee: Parker-Hannifin Corporation.). A free, non-transferable license limited to using these products under above mentioned patents accompanies the purchase of the product from Cytiva and its licensed distributors.

Bioreactor mixer bags

Please visit www.pall.com/patents

Biotrak™ Easy ELISAs

These products are manufactured under the proprietary technology of Bender MedSystems GmbH.

Biotrak MMP-1, MMP-3, MMP-9, and TIMP-1 Human ELISAs

These products are developed in collaboration with FUJI CHEMICAL INDUSTRIES, Ltd. (Japan).

Biotrak MMP-2 and TIMP-2 Human ELISAs

These products are manufactured by FUJI CHEMICAL INDUSTRIES, Ltd. (Japan).

Cellbag™ bioreactors

Cellbag bioreactors with integrated optical sensors are sold under a sublicense from Sartorius Stedim Biotech under US patent numbers 7,041,493 and/or its foreign equivalents, and please visit www.pall.com/patents

CDP-Star™

CDP-Star is a trademark of Tropix Inc

Cell DIVE™ software

Software for multiplexed imaging, including methods for acquisition, analysis and data visualization for multiplexed imaging is covered by US patent numbers 8,131,476; 8,880,351; 8,189,884; 8,135,187; 8,995,740; 8,639,013; 9,164,015; 8,873,827; 9,135,694; 9,607,375; 9,613,254; 9,778,263; 10,019,796; US Patent Appls 14/730032 and 14/730037 and equivalent patents in other countries owned by Cytiva. The purchase of a Cell DIVE License provides users with the rights to practice these patents under the terms of the license. For more information regarding the license and permitted uses contact lslicensing@cytiva.com

Cell DIVE Staining Methods

Methods relating to sequentially staining and probing samples to obtain multiplexed images is covered by US patent numbers 7,629,125; 9,164,015; 8,568,991; 9,176,032; 9,250,245; 9,677,125 and equivalent patents in other countries owned by Cytiva. The purchase of a Cell DIVE License provides users with the rights to practice these patents under the terms of the license. For more information regarding the license and permitted uses contact lslicensing@cytiva.com

DeltaVision OMX™

DeltaVision OMX is sold under use license from University of California San Francisco.

Disposable aseptic connector

This product is sold under license from Johnson & Boley Holdings, LLC under US patent number 6,679,529.

ECL™ Prime

This product or portions thereof is manufactured and sold under license from Cyanagen Srl and is subject of US patent 7,855,287, US Patent 7,803,573, and US Patent 9,040,252, together with other equivalent granted patents and patent applications in other countries

Free MabSelect SuRe™ Ligand

"MabSelect SuRe Ligand Restricted License" and "Cys-rProtein A Ligand Restricted License" are protected by the following patents and equivalents: US8,198,404. A free, non-transferable limited license to use this product for internal analytical purposes only accompanies the purchase of the product from Cytiva and its licensed distributors. Any other use will require a separate license from Cytiva.

Free MabSelect™ Prisma

"MabSelect Prisma Ligand Restricted License" is protected by the following patents and foreign equivalents: US9156892, US9534023, US9296791 and US9657055.

A free, nontransferable, limited license to use these products for internal analytical purposes only accompanies the purchase of the product from Cytiva and its licensed distributors. Any other use will require a separate license from Cytiva.

GenomiPhi™

For use only as licensed by Qiagen GmbH. The Phi 29 DNA polymerase may not be re-sold or used except in conjunction with the other components of this kit. See US patent number 6,323,009, and equivalent patents and patent applications in other countries.

IMAC Sepharose™ products, Ni Sepharose products and Fe Sepharose products

These products are sold under a license from Sigma-Aldrich under patent number EP 1276716 (Metal chelating compositions) and equivalent patents and patent applications in other countries.

ImageMaster 5 (and later versions)

This version of ImageMaster has been developed by the Swiss Institute of Bioinformatics in collaboration with GeneBio and Cytiva.

IN Cell Analyzer System and IN Cell Investigator Software

The IN Cell Analyzer system and the In Cell Investigator software are sold under use license from Cellomics Inc. under US patent numbers: 6,716,588, 6,917,884, 6,986,993; Canadian patent numbers CA 2362117, 2381344; European patent numbers EP 1155304, 1203214, 1348124, 1368689; Japanese patent numbers JP 3576491, 4011936 and equivalent patents and patent applications in other countries.

KappaSelect

KappaSelect incorporates BAC BV's proprietary ligand technology, which has been exclusively licensed to Cytiva for affinity separation. Other uses of this product may require a separate license from BAC BV, Huizerstraatweg 28, 1411 GP Naarden, The Netherlands.

Melanie™ 9 (and later versions)

This version of Melanie has been developed by the Swiss Institute of Bioinformatics in collaboration with GeneBio and Cytiva.

Melanie is a trademark of SIB Swiss Institute of Bioinformatics.

NeutrAvidin™ Sensor Chip

The NeutrAvidin in Sensor Chip NA is sold with permission from Pierce Biotechnology, Inc. The transfer of Sensor Chip NA is conditioned on the buyer using the purchased product solely for research purposes, the buyer must not (1) use this product or its components for diagnostic, therapeutic or prophylactic purposes; and/or (2) sell or transfer this product or its components for resale, whether or not resold for use in research. NeutrAvidin is a registered trademark of Pierce Biotechnology, Inc. For information on purchasing a license to this product for purposes other than as described above, contact Thermo Fisher Scientific Inc., 5781 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@thermofisher.com.

Nitrocellulose Membranes (FFHP, Immunopore™ and BA membranes)

Sold under license to DE10102744 and foreign equivalents thereof"

Plasminogen Removal Gel

The Plasminogen Removal Gel is subject to EP 1390485 and its foreign equivalents, and other intellectual property rights owned by OMRIX BIOPHARMACEUTICALS S.A, Belgium ("OMRIX"). Any customer wishing to use Plasminogen Removal Gel for any purpose falling under any valid claims of the said patent rights other than for research purposes needs prior to such use to (a) contact OMRIX directly and (b) sign a license agreement with OMRIX.

Primer Support™ 200

Primer Support 200 is covered by US patent number 6,335,438 and equivalent patents and patent applications in other countries.

Protein L

Protein L is covered by US 6, 822,075, US 6,162, 903, US 6,884,629 and equivalent patents and patent applications in other countries owned by Affitech AS and exclusively licensed to Cytiva

ReadyMate™

This product is covered by US patent number 6,679,529 B2 owned by Johnson & Boley Holdings, LLC and licensed to Cytiva.

Single Cell GenomiPhi

For use only as licensed by Qiagen GmbH. The Phi 29 DNA polymerase enzyme may not be re-sold or used except in conjunction with the other components of this Kit. See U.S. patent 6,323,009 and equivalent patents and patent applications in other countries

StrepTrap XT and Strep-Tactin XT Sepharose

StrepTrap XT and Strep-Tactin XT Sepharose are covered by WO2014076277, US10065996, WO2017186669 and equivalent patents and patent applications in other countries. The purchase of StrepTrap XT and Strep-Tactin XT Sepharose includes a license under such patents for non-profit and in house research only. Please contact IBA (info@iba-go.com) for further information on licenses for commercial use of Strep-Tactin. Strep-Tactin is a registered trademark of IBA GmbH.

TALON™ Superflow and HiTrap TALON

TALON is a registered trademark of Clontech Laboratories Inc.

TempliPhi™

For use only as licensed by Qiagen GmbH. The Phi 29 DNA polymerase may not be re-sold or used except in conjunction with the other components of this kit. See US patent 6,323,009 and its equivalent in other countries.

VIIISelect

VIIISelect incorporates BAC BV's proprietary ligand technology, which has been exclusively licensed to Cytiva in the field of purification of beta domain depleted recombinant factor VIII. Other use of this product may require a separate license from BAC BV, Huizerstraatweg 28, 1411 GP Naarden, The Netherlands.

Xcellerex™ APS Flow kit-L

The use of Xcellerex APS Flow kit-L may require a license under the following US patents and equivalents patents in other countries: US Pat No. 6,712,963 and 7,052,603 (assignee: Parker-Hannifin Corporation.). A free, non-transferable license limited to using these products under above mentioned patents accompanies the purchase of the product from Cytiva and its licensed distributors.

On product literature:

The Xcellerex™ APS (Automated Perfusion System) system is designed for perfusion cell culturing and may therefore be used for a broad variety of cell culture processes (e.g. in the field of intensified and/or continuous cell culturing). Purchaser shall at all times be solely responsible for obtaining any additional intellectual property rights necessary for the use of the Xcellerex APS system for their specific cell culture processes.

Cytiva and the Drop logo are trademarks of Global Life Sciences IP Holdco LLC or an affiliate.

ÅKTA, Biotrak, Cellbag, CELL Dive, DeltaVision OMX, ECL, GenomiPhi, Immunopore, MabSelect, MabSelect SuRe, OligoPilot, Primer Support, readyflux, ReadyMate, Sepharose, TempliPhi, and Xcellerex are trademarks of Global Life Sciences Solutions USA LLC or an affiliate doing business as Cytiva.
