

VIP SHIPPERS

Sonoco ThermoSafe's Vacuum Insulated Panel (VIP) Shippers and Solutions are ideal for the transport of frozen (<-20 °C) shipments. These high performing shippers have a tough, non-metalized barrier and outer structural film—yielding a robust shipping container. The durable outer layer film, allow for reduced dimensional weight packages while the innovative panels hold in the cold reducing the amount of dry ice required to hold extended durations.

The combined effect is premium performance and long lasting temperature protection.

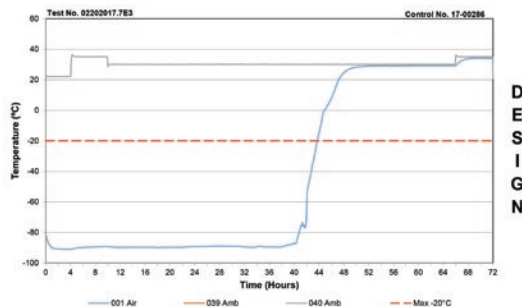

Our smallest VIP solution in combination with 3.5 lbs of dry ice maintains <-20 °C for over 40 hours and has been tested to ISTA 7D standards. Our Pre-qualified Certis solutions maintain <-20 °C for well beyond 5-days.

IMPROVED THERMAL PERFORMANCE:

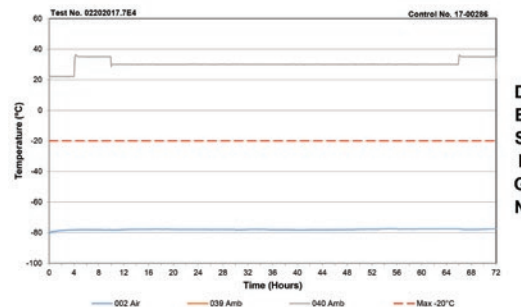

- Reduces gel refrigerant/dry ice requirements
- Reduces overall package size
- Extends shipping duration
- Environmentally neutral and recyclable — no CFC's or HCFC's
