Equipment Cleaning Solutions

Micronova® MANUFACTURING INC.

Small or Large Equipment – A Micronova Cleaning Tool Solves your Sanitization Challenge

Equipment cleaning and sanitization present a variety of challenges including accessibility in highly critical environments. Micronova's specialty cleaning tools offer solutions that increase effectiveness, reduce time and enhance ergonomics. Concave tank bottoms and overhead piping can be as easy to clean as a flat wall. Dual cleaning surfaces for strip curtains and Lyo shelves cut cleaning time in half. Simplify your cleaning with a Micronova cleaning tool.

Window Washing
Simple and efficient.

Window Washer Tool 12": QPWT-12
