

# Safety Data Sheet

## KOVA® -TROL URINE CONTROLS-ABNORMAL

### 1 . Product and company identification

**Product name** : KOVA® -TROL URINE CONTROLS-ABNORMAL

**Component** : Kova-Trol I - High Abnormal 87200, 87325, 87326, 87329, 87332, 87333, 87334, 87426, 87533, 87325E, 87326E, 87329E, 87332E, 87333E, 87334E, 87426E, 87533E, 87325M, 87326M, 87329M, 87332M, 87333M, 87334M

: Kova-Trol II - Low Abnormal 87128, 87130, 87200, 87428, 87128E, 87130E, 87428E, 87128M, 87130M

**Manufacturer / Supplier** : Kova International, Inc.  
7272 Chapman Avenue, Suite B  
Garden Grove, CA 92841

Tel: 1-714-902-1700  
Fax: 1-714-908-7945  
Business hours: (8:00 a.m. - 5:00 p.m., PST, Monday - Friday)

**Emergency telephone number** : Contact your local Poison Center

**Use of the substance/preparation** : For *in vitro* diagnostic use only

### 2 . Hazards identification

**Physical state** : Kova-Trol I - High Abnormal Solid. [Powder.Lyophilized]  
Kova-Trol II - Low Abnormal Solid. [Powder.Lyophilized]

**Odor** : Kova-Trol I - High Abnormal Odorless.  
Kova-Trol II - Low Abnormal Odorless.

**OSHA/HCS status** : Kova-Trol I - High Abnormal While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.  
  
Kova-Trol II - Low Abnormal While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

**Emergency overview-Label Statement** : Kova-Trol I - High Abnormal NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.  
  
Kova-Trol II - Low Abnormal NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

## 2 . Hazards identification

Kova-Trol I - High Abnormal

No known significant effects or critical hazards. Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat. Avoid prolonged contact with eyes, skin and clothing.

Kova-Trol II - Low Abnormal

No known significant effects or critical hazards. Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat. Avoid prolonged contact with eyes, skin and clothing.

### Potential acute health effects

<b>Eyes</b>	: Kova-Trol I - High Abnormal	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.
	Kova-Trol II - Low Abnormal	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.
<b>Skin</b>	: Kova-Trol I - High Abnormal	No known significant effects or critical hazards.
	Kova-Trol II - Low Abnormal	No known significant effects or critical hazards.
<b>Inhalation</b>	: Kova-Trol I - High Abnormal	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
	Kova-Trol II - Low Abnormal	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
<b>Ingestion</b>	: Kova-Trol I - High Abnormal	No known significant effects or critical hazards.
	Kova-Trol II - Low Abnormal	No known significant effects or critical hazards.
<b>Medical conditions aggravated by over-exposure</b>	: Kova-Trol I - High Abnormal	Not applicable.
	Kova-Trol II - Low Abnormal	Not applicable.
<b>Over-exposure signs/symptoms</b>	: Kova-Trol I - High Abnormal	Not applicable.
	Kova-Trol II - Low Abnormal	Not applicable.

See toxicological information (section 11)

## 3 . Composition/information on ingredients

<u>Name</u>	<u>CAS number</u>	<u>%</u>
No hazardous ingredient		

There are no ingredients or additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## 4 . First aid measures

<b>Eye contact</b>	: Kova-Trol I - High Abnormal	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if adverse health effects persist or are severe.
	: Kova-Trol II - Low Abnormal	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if adverse health effects persist or are severe.
<b>Skin contact</b>	: Kova-Trol I - High Abnormal	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if adverse health effects persist or are severe.
	: Kova-Trol II - Low Abnormal	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if adverse health effects persist or are severe.
<b>Inhalation</b>	: Kova-Trol I - High Abnormal	If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention if adverse health effects persist or are severe.
	: Kova-Trol II - Low Abnormal	If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention if adverse health effects persist or are severe.
<b>Ingestion</b>	: Kova-Trol I - High Abnormal	Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if adverse health effects persist or are severe.
	: Kova-Trol II - Low Abnormal	Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if adverse health effects persist or are severe.
<b>Protection of first-aiders</b>	: Kova-Trol I - High Abnormal	Not applicable.
	: Kova-Trol II - Low Abnormal	Not applicable.
<b>Notes to physician</b>	: No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.	

## 5 . Fire-fighting measures

<b>Flammability of the product</b>	: Kova-Trol I - High Abnormal	Non-flammable.
	: Kova-Trol II - Low Abnormal	Non-flammable.
<b>Products of combustion</b>	: Kova-Trol I - High Abnormal	Decomposition products may include the following materials: carbon oxides
	: Kova-Trol II - Low Abnormal	No specific data.
<b><u>Extinguishing media</u></b>		
<b>Suitable</b>	: Kova-Trol I - High Abnormal	Use an extinguishing agent suitable for the surrounding fire.
	: Kova-Trol II - Low Abnormal	Use an extinguishing agent suitable for the surrounding fire.
<b>Not suitable</b>	: Kova-Trol I - High Abnormal	Not applicable.
	: Kova-Trol II - Low Abnormal	Not applicable.

## 5 . Fire-fighting measures

**Special protective equipment for fire-fighters** : Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6 . Accidental release measures

<b>Personal precautions</b>	: Kova-Trol I - High Abnormal	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).
	: Kova-Trol II - Low Abnormal	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).
<b>Environmental precautions</b>	: Kova-Trol I - High Abnormal	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	: Kova-Trol II - Low Abnormal	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
<b>Methods for cleaning up</b>		
<b>Small spill</b>	: Kova-Trol I - High Abnormal	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
	: Kova-Trol II - Low Abnormal	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

## 7 . Handling and storage

<b>Handling</b>	: Kova-Trol I - High Abnormal	Wash thoroughly after handling.
	: Kova-Trol II - Low Abnormal	Wash thoroughly after handling.
<b>Storage</b>	: Store between the following temperatures: 2°C to 8°C (35.6°F to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.	

## 8 . Exposure controls/personal protection

**Product name** **Exposure limits**

**United States**

No exposure limit value known.

**Consult local authorities for acceptable exposure limits.**

## **8 . Exposure controls/personal protection**

- Engineering measures** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
- Personal protection**
- Eyes** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dust.
- Skin** : Chemical resistant protective gloves and clothing are recommended. The choice of protective gloves or clothing must be based on chemical resistance and other use requirements. Generally, BUNA-N offers acceptable chemical resistance. Individuals who are acutely and specifically sensitive to this chemical may require additional protective clothing.
- Respiratory** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
- Hands** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Other protection** : Not available.
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## **9 . Physical and chemical properties**

- Physical state** : Kova-Trol I - High Abnormal Solid. [Powder.Lyophilized]  
Kova-Trol II - Low Abnormal Solid. [Powder.Lyophilized]
- Color** : Kova-Trol I - High Abnormal Amber. / Yellow.  
Kova-Trol II - Low Abnormal Yellow.
- Odor** : Kova-Trol I - High Abnormal Odorless.  
Kova-Trol II - Low Abnormal Odorless.
- pH** : Kova-Trol I - High Abnormal 7 to 9 [Basic.]  
Kova-Trol II - Low Abnormal 7 to 9 [Basic.]
- Boiling/condensation point** : Kova-Trol I - High Abnormal ~ 100°C (212°F)  
Kova-Trol II - Low Abnormal ~ 100°C (212°F)
- Solubility** : Kova-Trol I - High Abnormal Easily soluble in the following materials: cold water and hot water.  
Kova-Trol II - Low Abnormal Easily soluble in the following materials: cold water and hot water.

## 10 . Stability and reactivity

<b>Stability and reactivity</b>	:	The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur.				
<b>Incompatibility with various substances</b>	:	Reactive or incompatible with the following materials: oxidizing materials.				
<b>Hazardous decomposition products</b>	:	<table border="0"> <tr> <td>Kova-Trol I - High Abnormal</td> <td>Under normal conditions of storage and use, hazardous decomposition products should not be produced.</td> </tr> <tr> <td>Kova-Trol II - Low Abnormal</td> <td>Under normal conditions of storage and use, hazardous decomposition products should not be produced.</td> </tr> </table>	Kova-Trol I - High Abnormal	Under normal conditions of storage and use, hazardous decomposition products should not be produced.	Kova-Trol II - Low Abnormal	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Kova-Trol I - High Abnormal	Under normal conditions of storage and use, hazardous decomposition products should not be produced.					
Kova-Trol II - Low Abnormal	Under normal conditions of storage and use, hazardous decomposition products should not be produced.					

## 11 . Toxicological information

### Acute toxicity

<b>Eyes</b>	:	<table border="0"> <tr> <td>Kova-Trol I - High Abnormal</td> <td>Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.</td> </tr> <tr> <td>Kova-Trol II - Low Abnormal</td> <td>Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.</td> </tr> </table>	Kova-Trol I - High Abnormal	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.	Kova-Trol II - Low Abnormal	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.

Kova-Trol I - High Abnormal	To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.					
Kova-Trol II - Low Abnormal	To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.					

## 12 . Ecological information

- Environmental effects** : May cause long-term adverse effects in the aquatic environment.
- Biodegradability**
- Conclusion/Summary** : This product is not expected to bioaccumulate through food chains in the environment.
- Mobility** : This product is not likely to partition to organic material in the environment.
- Other adverse effects** : No known significant effects or critical hazards.

## 13 . Disposal considerations

- Waste disposal** : The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

## 14 . Transport information

### Regulatory information

**DOT / IMDG / IATA** : Not regulated.

## 15 . Regulatory information
