

Protide Pharmaceuticals, Inc. is devoted to the discovery and development of technologies and products in cell therapy, regenerative medicine, stem cell biology, and cell engineering. Protide has over 35 years of experience in R&D and manufacturing.

## pZerve™

pZerve™ is a cryopreservation solution that does not contain Dimethyl Sulfoxide (DMSO), fetal bovine serum or animal protein. Optimal recovery is achieved through a novel approach to cell physiology at ultra-low temperatures. pZerve™ is cell ready and does not require any dilution or further processing. cGMP Manufactured.

FOR LABORATORY USE. NOT FOR INJECTION.

Product Highlights
• Does not Contain DMSO
• No fetal bovine serum or other animal proteins
• Sterile/Ready to use
• Lot to lot consistency
• Optimal recovery
• Cost effective
