ADVANTAGE® 1000 FACEPIECES, MSA

- Wraparound flexible lens that offers excellent fit and comfort with increased vision
- Weighs 40% less than conventional full-face piece respirators
- Constructed of super-soft Hycar™ rubber that provides the feel and comfort of silicone but has a better permeation resistance
- Unique inturned lip seal that provides exceptional seal against a wide range of face contours and with suspension strap
- Distinctive, flexible urethane lense that is integrally bonded to the facepiece, eliminating the need for rigid lens retainers that can cause unwanted pressure points
- Speaking diaphragm for clear, short range communication
- Nosecup reduces lense fogging in low temperatures or high-humidity conditions

TYCHEM® HOODS, BULLARD®

- Simple, effective, and economical options for respiratory protection
- Covers entire head, face, and neck to provide splash and overspray protection
- Neck cuff design maintains positive pressure inside the hood by inflating the inner collar to provide a snug, comfortable fit and continuous airflow
- Wide-angle lens offers large field of vision while accommodating beards, prescription eyeglasses, or safety glasses
- Lighter and more comfortable than tight-fitting full facepiece respirators
- Durable enough to reuse, yet economical enough to discard after each use
- Approved for NIOSH for use in Type-C applications

VERSAFLO™ S-SERIES ECONOMY HOODS, 3M™

- Provides head, face, neck and shoulder coverage
- For applications that require frequent replacement of entire headgear assembly
- Fully assembled

FLEXTECH™ NYLON Y9277 GLOVES WITH POLYURETHANE PALM COATING ERGONOMICALLY DESIGNED

Coated glove shells are excellent for a variety of applications that require a high level of dexterity along with cut protection. Non-slip surface allows workers to work more efficiently and with greater confidence. The open, uncoated back circulates air, allowing hands to 'breathe' and keeping them cool and comfortable.

– Charcoal gray nylon shell
– Polyurethane palm coating for grip
– ANSI A1 cut resistance
– Silicone free

FLEXTECH™ GLOVES, THERMAL HI-VIS SYNTHETIC SHELL WITH LATEX PALM

Lightweight synthetic knit offers great awareness in the workplace. Its non-slip surface allows workers to work more efficiently and increase their grip. The open, uncoated back circulates air, allowing hands to 'breathe' and keeping them cool and comfortable. The hi-vis glove lining provides an additional level of protection in cold environments.

– Hi vis green synthetic knit shell
– Latex palm for grip
– Brushed fleece thermal lining for warmth
– ANSI A3 cut resistance

GAS DETECTION PUMP KIT AND HYDROGEN SULFIDE DETECTION TUBES, SENSIDYNE®

– Measures gas and vapor concentrations in work area as easily as reading a thermometer
– Calibration marks indicate gas concentration
– Synthetic rubber sheath allows pump to be held firmly, even with wet gloves
– Fail-safe handle locks in two positions (50 or 100cc)
– Flow finish indicator makes viewing instantaneous and easy

Tyvek® & Tychem® Aprons are available for a variety of hazards & applications.

Tychem® 400

Tychem® 2000

Tychem® 4000

Tychem® 6000

Tyvek® 400 provides an ideal balance of protection, durability and comfort compared to any limited-use fabric technology. Tyvek® 400 fabric offers an inherent barrier against particles (down to 1.0 micron in size). Available in bulk or vend pack.

Tychem® 2000 utilizes the strength of DuPont Tyvek® fabric and a polyethylene coating. Lightweight and durable, Tychem® 2000 fabric provides at least 30 minutes of protection against 42 chemical challenges. Sleeved aprons are also available.

Tychem® 4000, utilizes Saranex(™)23-P film laminated to Tyvek® fabric to provide a rugged and durable fabric that resists abrasion. Tychem® 4000 fabric provides at least 30 minutes of protection against 124 chemical challenges. Sleeved aprons are also available.

Tychem® 6000 FR offers a single layer garment that provides triple hazard protection from liquid-chemical splash, flash fire and electric arc. Tychem® 6000 FR fabric provides at least eight hours breakthrough protection against 17 of the 21 standard ASTM F1001 chemicals and at least 30 minutes of protection for more than 180 chemical challenges including chemical warfare agents. Available in high visibility orange and low visibility gray.
