

Cabinets & Casework

Customizable, secure, and organized

Includes:

- Freestanding Cabinets
- Customizable Casework
- Sinks and Countertops
- Console Cabinets

OUR MISSION

Customer Focus

Exceed customer expectations through a commitment to continuous improvement of our products and services.

Quality Products

Offer the marketplace a broad range of high quality, cost effective, and durable products of superior craftsmanship.

Organizational Excellence

Strive for excellence in all we do by fostering a participative, team based environment, which nurtures the active involvement of all members of the organization.

Marketplace Recognition

Earn the respect, admiration, and loyalty of our people, customers, and suppliers by treating them with dignity and respect, embracing diversity, and developing and maintaining long term partnerships.

Collaborative Workplace

Encourage all employees to work safely and efficiently, contribute innovative ideas, and personally benefit from the ongoing success of the company.

BLICKMAN

THE BLICKMAN DIFFERENCE

Freestanding Cabinets

- Our stainless steel cabinets are constructed with a seamless welded face preventing dirt collection while providing long lasting durability through unparalleled strength and corrosion resistance.
- Our freestanding cabinets rest on four legs with glides or can be mobilized on casters.
- Kay and Kennedy cabinets feature two separate sections with unlocked or locked compartments.
- Paul and Walter cabinets provide maximum storage room for large equipment.

Key Product Features

Cabinets

Freestanding

FREESTANDING

Description: Our Kay and Kennedy freestanding cabinets feature separate upper and lower sections. The upper sections of these cabinets are locked, transparent compartments for easily viewing and securing contents. The Kennedy cabinet includes an independently locked and welded narcotic locker.

Kay Cabinet

Upper section: Consists of a locked 29 3/4" x 31 3/8" x 15" compartment with a glass door and three removable glass shelves

Lower section: Consists of a 29 3/4" x 20 1/2" x 15" compartment with a stainless steel door and one stainless steel shelf

Kennedy Cabinet

Upper Section: 8" deep and contains a welded and independently locked narcotic locker

Lower Section: 16" deep and contains three 7" deep drawers and one 15" deep compartment

Name	Kay	Kennedy
Dimensions (WxHxD)	30" x 58" x 16"	36" x 76 1/2" x 16"

Shipping Weight	219 lbs.	291 lbs.

Cabinets

Freestanding

FREESTANDING

Description: Our Paul and Walter cabinets are double door freestanding cabinets. They each come standard with two glass locked doors for securing contents. Our Walter cabinet is ideal for storing large instruments on its back pegboard, while our Paul cabinet includes shelving for storing lots of instruments and supplies. They are both 16" deep and 76" tall on gliders. They are 79 1/4" tall on casters.

Walter Cabinet

This cabinet is great for storing endoscopy equipment or other large instruments on its pegboard

Paul Cabinet

This cabinet provides maximum shelving storage for instruments and supplies. Glass shelves are adjustable every 1/2"

All shipping weights are estimates and may be changed without prior notice. Specifications may be improved and dimensions changed without prior notice. Please contact customer service for estimated shipping costs.

THE BLICKMAN DIFFERENCE

Casework

- Need more flexibility in today's space squeezed environment? We provide you with casework that can be assembled together and modified to fit your custom dimensions.
- Whether it is renovation or new construction, we will be happy to work with your facility's personnel, architects, contractors, and/or equipment planners to meet your custom requirements.
- Utilizing 3D Design Software REVIT®, we have developed a library of our standard products which is available at no charge to your company. Our 3D library will save you considerable time and money when working on projects that require stainless steel cabinets and equipment.
- Each product line of cabinets (console cabinets, high cabinets, base cabinets, and wall cabinets) have their individual properties identified for easy customization: (cubic feet, weight, "X", "Y" and "Z" dimensions, voltage, etc.).

DRAWER HOUSING

Description: You can use drawer housing to add a drawer or two under your countertop or tabletop surface. This helps increase storage space to prevent lack of access to equipment and supplies when stored separately.

All drawer housing is 22" deep and reaches 5" below the underside of the countertop or tabletop. Width of drawer housing varies depending on size and number of drawers inside. The drawers are all 18 1/8" deep and 2 1/2" tall and come in two width sizes: 14 1/8" and 20 1/8".

THE BLICKMAN DIFFERENCE

Console Cabinets

- Our console cabinets are designed with you in mind. Without taking up valuable floor space, choose these cabinets for storing a full scheduled day, protecting your sterile supplies behind closed doors, and allowing instant access to supplies and equipment to minimize procedural delays.
- We offer individual units that can be combined and assembled into your own custom console arrangements. You can easily design your own by selecting cabinets with solid or glass doors available with or without locks. Locks can be keyed alike or independently. Stainless steel perimeter recessing trim may be purchased with all built-in installations.
- We offer units with shelving, good for storing equipment and supplies and other units with pegboard backs, great for storing large pieces of equipment.
- We also offer a desk cabinet with drawers, a sloped writing surface, and a dry erase board.
