### Introducing NEB's Environmentally-Friendly, High-Performing Nucleic Acid Purification Kits

Monarch nucleic acid purification kits provide fast and reliable purification of high quality DNA from bacterial cultures, agarose gels, and enzymatic reactions using best-in-class silica column technology. Monarch's unique column design eliminates buffer retention and the risk of carryover contamination, providing fast, worry-free DNA purification. Designed with sustainability in mind.

- Excellent yield of highly-pure, highly-concentrated DNA for use in downstream applications
- No buffer retention, eliminating the risk of carryover contamination
- Buffers and columns available for sale separately
- Made with up to 44% less plastic and packaged with responsibly-sourced, recyclable packaging

| Description                                 | Size      | Cat. No.          | Unit        |
|---|-----------|-------------------|-------------|
| Monarch <sup>®</sup> Plasmid Miniprep Kit   | 50 Preps  | <b>102971-698</b> | <b>Each</b> |
