Our Story...

The Zing® story begins in 2009. As I walked past an ordinary “Recycle Aluminum Cans Here” sign, I was suddenly struck by the irony of the situation. The message was promoting environmental awareness, but the sign itself was made out of environmentally harmful materials. I decided I would work to resolve this inconsistency. Why not, I thought, make recycling signs out of recycled materials? This way, we could advocate a greener, healthier world and operate according to those same principles.

We began with Green@Work Signs, then moved into OSHA Safety Signs, Traffic & Parking signs, Lockout Tagout products and GHS/HazCom products. They are all high-quality products made from sustainable materials. We pride ourselves on using high recycled content materials and have earned an independent green validation from UL Environment.

Our products are designed for socially conscious buyers as well as safety professionals who just want superior products. Thank you for joining Zing® on our journey to do our small part as responsible corporate citizens. We are very much appreciative of your support.

- Tom Prinzing

The Advantages of buying ZING® Green Safety Products:

ZING® products are manufactured with high-quality, recycled materials. The materials in our products are diverted from landfills, thereby reducing pollution, waste, and bottom line costs.

ZING® Green Products help companies reach their certification goals. This includes LEED (Leadership in Energy and Environmental Design), an organization that encourages green building design and facility maintenance.

ZING® Green Products support corporate and community stewardship.

ZING® product designs ensure worker safety and safety compliance in the workplace.

ZING® prices are competitive with traditional safety products.

Over 90% of the ZING product line up is **Made in the USA.**

UL VALIDATED The Mark of GREEN Assurance!

Nearly all Zing products are UL Validated for recycled content. Underwriters Laboratories (UL) is a third-party organization that confirms recycled content levels, landfill waste diversion, and compliance with green codes and standards.

Independent validation brings credibility and transparency to the green marketplace. UL Validation protects customers from green-washing, a marketing tactic in which a product's eco-friendliness is exaggerated. There is no green-washing at Zing!

ZING is continually driving innovation and bringing new products to market for a safer and compliant workplace!

New @ ZING®

GHS / HazCom Products

Make sure you're up to speed with the new OSHA HazCom standard.

See Pages 10-13

NEW Lockout/Tagout Devices

New Lockout / Tagout products increase worker safety and support OSHA compliance. **See pages 7-8**

NEW Fire/Exit Signs

ZING Fire and Exit Signs meet OSHA and ANSI requirements. Signs are designed for maximum visibility and safety. **See pages 18-19**

NEW Health/Research/Lab Signs

ZING Biohazard, Radiation and other public facility safety signs comply with OSHA regulations. Signs protect employees, patients and visitors from dangerous biohazards, radiation, and other potentially harmful situations. **See pages 20-21**

Security / Concealed Carry Signs & Stickers

Security / Concealed Carry Signs, Stickers & Window Decals communicate critical security information to employees, customers and visitors. **See pages 26-27**

No Smoking Signs, Stickers & Window Decals

State-specific signs comply with state law requirements. Signs clearly communicate smoking regulations and policies. **See pages 24-25**

RecycLockout® Lockout/Tagout Stations

Stations are designed to accommodate padlocks with a shackle length of 1.5" or 3". Unique hooks can store two padlocks or hasps each. Padlocks can also be locked to the hooks for extra security. Lockout station boards are constructed from impact-resistant recycled plastic, except for part # 76025-976, which is made from recycled stainless steel. UL Validated for high recycled content.

RecycLockout® Metal Lockout Cabinet

76025-972

76025-966

Lockout Tagout Information Cabinet stores important safety documents and supports compliance with lockout tagout standards. Cabinet includes an easy-to-carry handle and a built-in 3-ring binder assembly. Stores up to 300 sheets.

Lockout Cabinet (stocked) stores lockout devices. The inner shelf features 14 slots for extra storage of padlocks and hasps, and the inside door houses lockout tags and ties. Lockable hasp included for extra security. Cabinet is pre-drilled for easy mounting.

Cabinets are constructed from recycled stainless steel. UL validated for high recycled content.

RecycLockout® Lockout/Tagout Kits

ZING® Lockout kits provide a variety of lockout devices for on-the-job maintenance and repair operations. Lockout pouch is made from heavy-duty, 100% recycled fabric with double-sewn seams and a PVC-free coating. Pouch is water repellent and fire retardant. Lockout devices are made from heavy-duty recycled materials. Supports sustainability initiatives and LEED credits. UL Validated for high recycled content.

All ZING® Lockout products are UL approved!

Lockout Tool Box

RecycLockout® Lockout Tool Box provides a variety of lockout devices for on-the-job maintenance/repair operations.

Tool box features a single open compartment which easily accommodates a variety of tools and devices. Made from 100% recycled plastic. Tool Box and lockout devices support sustainability initiatives and LEED credits. UL Validated for high recycled content.

Kit w/ Safety Locks	Kit w/ Aluminum Locks	Description	Kit/Station Contents	Dimensions
76026-270	76024-262	Lockout Tool Box	(3) Red Padlocks 1.5", (3) Breaker Lockouts, (1) Large Plug Lockout, (1) Small Plug Lockout, (1) 1"-2.5" Valve Lockout, (3) 1.5" Steel Hasps, (10) Tags, (10) Ties	13"W x 6.5"H x 5"D

RecycLock® Safety Padlocks

RECYLOCK®
Eco-Friendly Safety Padlock

find us:

ZING® Safety Padlocks feature a solid aluminum body, steel shackle, and a fully insulated protective covering for increased safety and corrosion resistance. Precision 6-pin cylinder has key-retaining and auto-locking functions.

Locks are made from recycled materials, contain no PVC and use only food grade lubricants. UL Validated for recycled content.

- Shackles measure ¼" diameter & are available in 1½" or 3" lengths
- Body lengths are available in 1¾" and 3"

Green RecycLock® Aluminum Padlocks

Padlock body is made of lightweight premium aluminum. Shackle is made from hardened alloy steel with a protective plating for corrosion resistance. Standard padlocks are keyed differently and include two keys per lock. Locks feature a precision 6-pin cylinder for maximum security. Locks are non-sparking and nonmagnetic.

Lock body measures 1⅞"H x 1½"W x ¾"D and is available in shackle heights of 1.5" and 3", with a shackle diameter of ¼". Padlocks are made from high recycled content to support sustainability initiatives and LEED Certification. UL Validated.

*Custom configurations are available; call for a quote!

Green RecycLock® Devices

RecycLockout® Circuit Breaker Lockouts

Universal Circuit Breaker Lockouts are designed with a slide-on feature which allows the device to be securely mounted to a wide range of breakers. Single pole (110/220 voltage) and Multipole (120/277 voltage) models fit pole switches .3" - .6" high, .35" - .44" deep, with or without a hole. Each breaker lockout will accommodate 1 padlock, with up to a 5/32" shackle diameter. Includes a highly visible lockout label, "DO NOT OPERATE." Breaker Lockouts are constructed from heavy-duty recycled plastic, which supports sustainability initiatives and LEED credits. 3/Pack. Made in the USA. UL Validated for high recycled content.

VWR Cat. No.	Dimensions	Description
76026-236	1"H x 2"L x .75"W	Universal Circuit Breaker Lockout, 3-Pack
76026-238	1"H x 2"L x 1 5/8"W	Universal Multi-Pole Breaker Lockout, 3-Pack

RecycLockout® Wall Switch Lockout

Wall Switch Lockout covers a wall-mounted switch and locks the switch in either the "on" or "off" position. Lockout will accommodate 1 padlock, with up to a 3/8" shackle diameter. Constructed from heavy-duty recycled plastic, which supports sustainability initiatives and LEED credits. Bright red color increases awareness and visibility. Switch lockout measures 3 1/2"H x 1 1/2"W x 1/4"D. Made in the USA.

VWR Cat. No.	Description
76025-992	Wall Switch Lockout

RecycLockout® Plug & Cylinder Lockouts

RecycLockout® Plug & Cylinder Lockouts

Lockout devices are made from heavy-duty, 100% recycled plastic.

Large Plug Lockouts feature a universal fit closure, which accepts up to a 1 1/4" diameter cord and 3"W x 5 1/2" L plugs.

Small Plug Lockouts fit up to a 1/2" diameter cord and 2"W x 3"L plugs. Both plug lockouts accommodate 3 padlocks. Made in the USA.

Cylinder Lockout fits over neck rings up to 3 1/2" dia. and valve stems to 1 1/4" and will accommodate 3 padlocks with shackles up to 5/16" diameter. Lockout measures 5"W x 7"H.

Green RecycLock® Devices

RecycLockout® Valve Lockouts

76026-222

Standard Gate Valve Lockouts

Gate Valve Lockouts are made from heavy-duty, 100% recycled plastic. Valve lockout accommodates 3 padlocks, with up to a 3/8" shackle diameter.

76026-272

RecycLockout® Valve Lockouts

Cable/Valve/Hasp Device combines the functions of several different lockout devices, including group lockouts, gate valve lockouts, and ball valve lockouts. Accommodates up to 6 locks. Made in USA.

VWR Cat. No.	Description
76026-222	Standard Gate Valve Lockout 1 in.-2.5 in.
76026-224	Standard Gate Valve Lockout 2.5 in.-5 in.

GHS! Are You Ready?

WHAT is GHS?

GHS, or Globally Harmonized System, is NOT a new OSHA regulation, but a revised version of the original Hazard Communication Standard (CFR 1910.1200). It provides a global standard for the classification and labeling of chemicals.

WHY GHS?

Exposure to hazardous chemicals is one of the most serious dangers facing American workers today. GHS will improve the quality, consistency and clarity of hazard information that workers receive. It makes it safer for workers to do their jobs and easier for employers to stay compliant.

ZING® GHS/SDS High Recycled Content SDS Products

GHS/SDS High Recycled Content SDS Binders:

ZING® SDS Binders are constructed from 100% post-consumer recycled materials. Our SDS binders are extremely durable, chemical resistant, easy to clean and almost impossible to rip or tear. Each binder contains a heavy-duty ring assembly, which is available in three different sizes: 1.5" (up to 300 sheets), 2.5" (up to 500 sheets), and 3" (up to 600 sheets). The binders are available in English and bilingual English/Spanish versions.

VWR Cat. No.	Description	Size	VWR Cat. No.	Description	Size
76025-944	SDS Binder	1.5" Ring English	76025-950	SDS Binder	1.5" Ring Bilingual
76025-946	SDS Binder	2.5" Ring English	76026-040	SDS Binder	2.5" Ring Bilingual
76025-948	SDS Binder	3" Ring English	76026-042	SDS Binder	3" Ring Bilingual

GHS/SDS High Recycled Content Portable Safety Document Case:

Portable Safety Document Kit is made from heavy-gauge recycled stainless steel. Extra strong handle allows the unit to be easily carried to job site locations. If a more permanent location is desired, the case can also be wall mounted. Contains a 3-ring binder assembly which holds 300+ sheets.

VWR Cat. No.	Description	Dimensions
76026-050	GHS/SDS Procedure Station, Portable Metal Cabinet	13-5/8"W x 12"H x 3"D

ZING® Green products are designed to help employers and manufacturers comply with the new Global Harmonized System. Our eco-friendly product line offers a sustainable solution to GHS compliance. ZING Green Products support LEED certification.

Five Steps to a GHS Hazard Communication Program

- 1) Develop a comprehensive written Hazard Communication Plan
- 2) Inventory all chemicals
- 3) Establish and maintain a comprehensive Safety Data Sheet (SDS) program
- 4) Label all containers, pipes and tanks
- 5) Train and communicate with your employees

GHS/SDS High Recycled Content Compliance and Training Centers

ZING® Eco Compliance/Training Centers make it easier to comply with the new GHS/Hazard Communication requirements. **Compliance Stations** include SDS binders, providing quick and easy access to important chemical information. **Training Stations** include SDS binders and training manuals, giving employees the resources they need to comply with the new standards. Stations are constructed from virtually indestructible .060 thick 99% recycled aluminum. Made in the USA.

A variety of sizes and configurations are available; see chart below.

76026-280	Eco SDS Wire Rack provides an economical way to store important safety information in binders. Includes mounting hardware.	9" x 14" x 4.5"

Important Dates for Compliance

December 1, 2013: Employers must train employees on the new label elements and the new SDS (Safety Data Sheets) format.

June 1, 2015: All chemical manufacturers, importers, distributors and employers must comply with ALL modified provisions of the final standard, with the exception that distributors may ship products labeled under the old system until 12/1/2015.

June 1, 2016: Update alternate workplace labeling and hazard communication program as necessary, and provide additional employee training for newly identified physical or health hazards.

Transition: All chemical manufactures, importers, distributors and employers must comply with either the final standard, the current standard, or both.

GHS/SDS High Recycled Content SDS Station Signs

Three-sided TriView® and two-sided V and L signs provide 180° of visibility, thereby ensuring that critical information is easily seen by employees. Signs are made in the USA from high-quality recycled plastic. Self-adhesive mounting pads included. UL validated for recycled content. Supports sustainability initiatives and LEED credits.

GHS/SDS Safety Eco-Signs

GHS/SDS safety signs protect people and our environment. Signs are available in three eco-friendly materials: 94% recycled aluminum, 70% post-consumer recycled plastic, or recycled polystyrene self-adhesive. Aluminum and plastic signs have pre-drilled holes for easy mounting. Plastic signs also include adhesive mounting pads. All signs are 10"x14" except 76025-410, 76025-412, and 76024-214, which are 14"x10".

GHS Posters

ZING® GHS Posters elucidate crucial aspects of the new GHS regulations. Posters are 18"x24" and fit all standard display frames and racks. Made in the USA. Printed on recycled plastic.

76026-044 Introduction to GHS (The Globally Harmonized System) poster reviews what the Globally Harmonized System is all about, why OSHA adopted the GHS, and the phase-in dates for implementing the GHS.

76026-046 GHS Container Labeling poster discusses the six types of information contained on a GHS label, and the differences between the GHS labels and other types of chemical hazard labels.

76025-952 GHS Safety Data Sheets poster reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDS's are different from Material Safety Data Sheets.

Security Signs/Stickers/Decals

Security Signs communicate critical safety information to employees, customers and visitors. Signs are made from heavy-duty, weather-resistant recycled aluminum. All signs are pre-drilled for easy mounting. Signs measure 10" x 14" unless otherwise noted. UL Validated for recycled content. Recycled materials support sustainability initiatives and LEED credits. Made in the USA.

Eco Glove Dispensers - Universal Mount

ZING® Glove Dispensers conveniently store and organize glove boxes. Can be mounted vertically or horizontally to a wall, cabinet or any other hard surface.

Glove dispensers are made from high-quality .150" thick 100% recycled plastic, providing superior durability and crack resistance. Supports sustainability initiatives and LEED credits.

Available in clear or white, and in single, double or triple box sizes.

Made in the USA.

76026-304	Glove Dispenser-Triple Box, White	10.5"	16.0"	4.0"
76026-306	Optional Magnet Mount	10.0"	5.0"	.125"

Optional Magnet Mount

Magnet Mounts facilitate easy placement of dispensers on metal surfaces. One magnet is required for a single dispenser, two for a double and three for a triple. Magnet mounts sold separately.

Eco Bouffant, Beard and Sleeve Guard Dispensers

ZING® Eco PPE Dispensers are made from heavy-duty, 100% recycled plastic, providing superior durability and crack resistance. Supports sustainability initiatives and LEED Credits. Pre-drilled for easy mounting. Made in the USA.

Bouffant Cap Dispenser

Conveniently stores and organizes bouffant boxes. Can be mounted vertically or horizontally. Holds one bouffant box, up to 9-3/8" wide by 3-3/8" deep.

Beard/Hair Net & Sleeve Guard Dispensers

Provides quick and easy access to PPE coverings. Easy-access lid keeps contents clean and dust free. Can be wall mounted or simply placed on a counter-top. Sleeve Guard Dispenser features two compartments.

VWR Cat. No.	Description	Length	Width	Height
76026-312	Bouffant Dispenser	9.0"	10.0"	4.0"
76026-314	Beard Net Dispenser	9.0"	7.5"	8.0"
76026-316	Sleeve/Arm Guard Dispenser	12.0"	11.5"	10.5"

* All Dispensers are sold empty without any gloves, bouffant, beard or sleeve/arm guards

Exit & Fire Signs

ZING Fire and Exit Signs are available in 4 eco-friendly options, each made from recycled materials: aluminum, plastic, glow-in-the-dark plastic, and self-adhesive.

- **Aluminum Signs** are manufactured using high-quality 94% recycled aluminum. UL validated for recycled content. Signs include 4 pre-drilled holes for easy mounting.
- **Plastic Signs** are manufactured using high-quality 70% post-consumer recycled plastic. UL validated for recycled content. Signs include 4 pre-drilled holes and adhesive tabs for easy mounting.
- **Self-Adhesive Signs** can be applied directly to doors, walls or the outside of windows. Signs are made from high-quality, recycled polystyrene with UV-resistant inks.
- **Glow-in-the-Dark Signs** are manufactured from recycled plastic with a high-performance, safety grade photoluminescent coating. Signs will glow for a period of 10 hours on a full charge and require no electrical power source. Can be used indoors or outdoors. ZING glow-in-the-dark signs exceed requirements for life safety, emergency egress, and other safety standards.

Exit Signs

ZING Exit Signs inform employees, customers and visitors of exit and emergency exit locations. Red and white color scheme offers maximum visibility and safety. Signs meet OSHA and NFPA Life Safety Code requirements.

Projecting Safety Signs

3-Sided Projecting Safety & Public Facility Signs

TriView® Safety & Public Facility Signs feature three projecting sides for maximum visibility. ZING manufactures the only available TriView® safety signs.

Signs are made from high-quality, 70% post-consumer recycled plastic. UL Validated for recycled content.

- Recycled material supports sustainability initiatives and LEED credits.
- Includes two mounting holes and adhesive mounting tabs.
- Available in two sizes: Standard and Slim.
- Glow-in-the-Dark model illuminates for over 10 hours, exceeding the ASTM E 2072-00 standards.
- Made in the USA.

Projecting Safety Signs

V, L and Corner Projecting Safety & Public Facility Signs

All projecting signs are made from high-quality, 70% post consumer recycled plastic. Signs are UL Validated for recycled content.

Recycled material supports sustainability initiatives and LEED credits.

Includes 2 mounting holes and adhesive tabs.
Made in the USA.

V & L Style Signs feature two projecting sides for high visibility.

- Standard V Style Signs measure 7"H x 12"W, Project 5"
- Bilingual V Style Signs measure 11"H x 7"W, Project 5"
- Standard L Style Signs measure 7"H x 2.5"W, Project 7"
- Bilingual L Style Signs measure 11"H x 2.5"W, Project 8"

Corner Style Signs communicate critical messages while saving space. Signs easily mount on any 90° angle corner. ZING manufactures the only available corner mounting signs.

- Corner Style Signs measure 10"H x 10"W

Eco No Smoking Signs

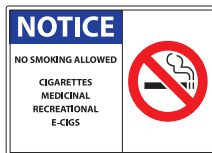

ZING® No Smoking Signs clearly communicate smoking policies and rules.

- **Window Decals** are designed with face adhesive, making them ideal for use on the inside of windows. Each decal is made from durable recycled polystyrene with UV resistant inks.
- **Adhesive Labels** can be applied to doors, walls or the outside of windows. Made from recycled polystyrene with UV-resistant inks.
- **Plastic Signs** are made from high quality, 70% post-consumer recycled plastic. UL validated for recycled content. Includes 4 mounting holes and adhesive tabs.
- **Aluminum Signs** are made from high quality, 94% recycled aluminum. UL validated for recycled content. Includes 4 mounting holes.

ZING® Plastic and Aluminum Signs have been UL Validated for high recycled content. UL provides independent, credible validation of green marketing claims.

Eco Parking Signs

ZING parking Signs are made from 99% Recycled Aluminum, exceeding the EPA's recommended recycled content levels. All Parking Signs meet MUTCD Standards. Signs feature 3M™ reflective sheeting, and are available in two grades: Engineered Grade Prismatic (EGP) and High Intensity Prismatic (HIP). All signs measure 18"H by 12"W unless otherwise stated, and are pre-drilled for easy mounting.

- EGP = Engineered Grade Prismatic
- HIP = High Intensity Prismatic

ZING Green@Work® signs encourage efficient business practices and eco-friendly habits. Standard 7" x 10" W signs are recommended for most viewing applications. 5" H x 3" W mini-signs work particularly well above light switches and water taps. Large 14" H x 10" W signs are recommended for large, open areas, where longer viewing distances apply. Signs include adhesive mounting pads.

Signs are also available in the Tri-View® and Tri-View® Slim formats. Tri-View® signs feature 3 projecting sides for 180° of visibility. TriView™ signs measure 7.5" H x 20" W and project 5". TriView™ Slim signs measure 12" H x 9" W and project 3".

Signs are made in the USA from high-quality, post-consumer recycled plastic. UL Validated for recycled content.

Lean@Work®

Lean@Work® Signs

Lean@Work Signs encourage cost-effective, low-waste business practices. Ideal for shop floors, training rooms or break areas. Lean@Work Signs help form efficient habits. Made in the USA from recycled plastic. Signs include adhesive mounting pads. All signs are 10"Hx14"W except 76025-244, 76025-246, and 76025-248, which measure 14"Hx10"W. Supports sustainability initiatives and LEED credits.

Pipe Valve Stem Safety Guard

Cylindrical in shape, Stem Shields are pipe and elastomeric foam sleeves that quickly slip over exposed stems. A small, stainless steel tether holds the unit firmly in place. They take less than 15 seconds to install and protect the stem for years.

WHY USE STEM SHIELD?

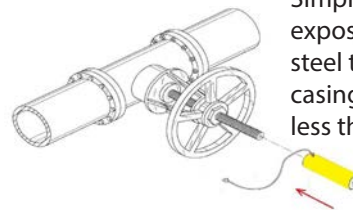

Once installed, Stem Shields provide three forms of protection:

- 1. Worker Protection:** Workers are protected from injuries associated with exposed valve stems (cuts, gouges, broken ribs, concussions, facial trauma, impalement, etc.). Brightly colored stem increases visibility and awareness.
- 2. Valve Protection:** The stems are protected from thread damage, corrosion, and oversprays. Stem Shield also helps prevent yoke contamination, ensuring your valve will continue to operate correctly.
- 3. Lubricant Protection:** Stem Shield prevents elements and debris, like sand and dirt, from getting into the lubrication needed to keep stems operational. Lubricant run-off is eliminated and frequency of lubrication is reduced, which saves time and maintenance costs.

Where It Works:

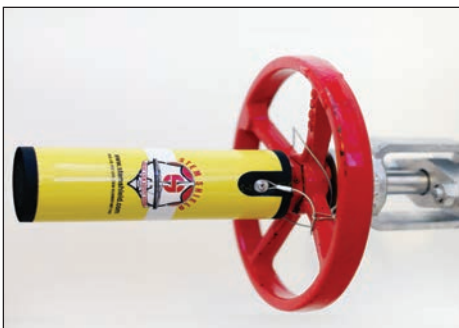

- > Oil & Gas Refineries
- > Pipelines
- > Federal Government
- > Energy Companies
- > Chemical Manufacturing
- > Any place where there are exposed valve stems
- > Water Treatment Facilities

How It Works:

Simply slide the Stem Shield over an exposed stem and clip the stainless steel tether to the wheel or valve yoke casing. The installation process takes less than 15 seconds.

Stem Shields provide simple, cost-effective safeguards against the all-too-preventable injuries sustained when workers bump, graze, or ram into stems that project from industrial valves.

- **LIGHTWEIGHT** – Stem Shields, depending on size, weigh between 7 and 14 ounces.
- **5 SIZES** – With 5 main sizes to choose from, Stem Shields are made to fit 95% of all industrial stems. Customized dimensions can also be accommodated.
- **QUICK INSTALLATION** – Stem Shields are easily installed in less than 15 seconds.
- **NO JOB INTERRUPTIONS** – Stem Shields do not inhibit operations. Stems remain fully operational with Stem Shield installed.
- **DURABILITY** – The Stem Shield is constructed to resist damage, chemicals, high temperatures, and element erosion.
- **IDEAL DESIGN** – Cylindrical design complements the shape of traditional valve stems.

VWR Cat. No.	Description
76026-296	Stem Shield 5" fits 3"-5" Valve Stems
76026-298	Stem Shield 7" fits 6"-7" Valve Stems

76026-294	Stem Shield 18" fits 13"-18" Valve Stems

Misc. Green Products

Eco Health Alert Poster

Health Alert Posters help stop the spread of flu and other illnesses by reminding employees, guests and visitors to follow proper hand-washing and hygiene practices. Poster is made from high-quality post-consumer recycled plastic. Posters measure 22”H x 16”W and include adhesive mounting pads. UL Validated for recycled content. Made in the USA.

VWR Cat. No.	Description	Dimensions
76025-942	Eco Health Alert Poster - Flu Prevention Steps	22” H x 16”W

Glow-In-The-Dark Fire Extinguisher Backplate

Fire Extinguisher backplate features a glow-in-the-dark surface for extra visibility. Rugged recycled plastic construction. Features 4 mounting holes for easy installation. *Fire extinguisher not included.*

VWR Cat. No.	Description	Dimensions
76024-810	Glow-in-the-dark fire extinguisher backplate	24” H x 12.5”W

Industrial Can Crusher

Industrial Can Crusher is the ideal solution to aluminum can management. Crushed cans mean less time spent emptying containers and less money spent on collection bags.

The crusher features a patented pivoting design that requires 75% less effort than other can crushers. Crushed cans are automatically dropped into the collection barrel (sold separately), which holds 48 cans. An existing collection container can also be used. Durable nylon, stainless steel and aluminum construction. Includes wall-mounting hardware.

The crusher is designed for 12 oz. aluminum cans. Includes a 7” x 10” recycled plastic sign which reads: “Please Crush Aluminum Cans.” Made in the USA.

76026-006

VWR Cat. No.	Description
76026-010	Industrial Can Crusher Kit Includes Can Crusher, Collection Barrel & Projecting Sign
76026-006	Industrial Can Crusher and Sign
76026-008	Industrial Can Crusher Collection Barrel (48 can capacity)

Eco Fire Blanket

Flame-resistant, oversized blanket can be used to smother flames and cover injured victims. Ideal for use in first-aid stations, police and rescue vehicles, manufacturing facilities, offices and schools. Includes hangable tote bag. Made from 100% recycled materials. The blanket measures 96”x60”. The complete kit measures 23”x23”x4”.

VWR Cat. No.	Description	Dimensions
76026-308	Eco Fire Blanket	23”H x 23”x4”W

Why Green Safety Products?

Our world has a limited amount of resources. As modern society continues to expand and new demands are made on our resources, sustainable business practices are becoming increasingly important. In order for future generations to enjoy a high standard of living, actions need to be taken now.

Thankfully, implementing a green products program is much easier today than in the past. Mainstream distribution now has a wide variety of sustainable products to choose from. This is especially true in the safety industry, where ecofriendly traffic signs, PPE, lockout/tagout equipment, and many other products are readily available. Recycled and sustainable products meet the same rigorous performance requirements as traditional safety products, and are priced competitively. Green safety products combine functionality and performance with social responsibility.

Green Certifications

Most ZING Green Safety Products are **UL Validated**. Validation is based on:

Recycled Content

UL Environment validates the post-consumer, post-industrial or total recycled content of a product.

Landfill Waste Diversion

UL Environment validates a company's waste diversion claims.

All ZING Products support **LEED Certification Credits** in the following categories:

Existing Building Operations & Maintenance Materials & Resources:

- 1.1-1.3 Sustainable Purchasing: Ongoing Consumables
- 2.1-2.2 Sustainable Purchasing: Durable Goods

New Construction:

- 4.1-4.2 Material Resource Credits: Recycled Content

Commercial Interiors:

- Materials Resources credits 4.0 Recycled Content and 6.0 Rapidly Renewable Materials
