BLOK™ Casein in TBS

(Cat. # 786-196)

think proteins! think G-Biosciences www.GBiosciences.com

INTRODUCTION

BLOK™ Casein is a purified protein, used for blocking free binding sites in western blot, ELISA plate well, immunohistochemistry and other immunochemical applications. It is in ready to use solution in 1X concentration.

ITEM(S) SUPPLIED (Cat. # 786-196)

Description	Size
BLOK™ Casein in TBS (1X)	2 x 500ml

STORAGE CONDITIONS

It is shipped at ambient temperature. Upon arrival, store refrigerated at 4°C, stable for 1 year.

PROTOCOL

1. Gently swirl the bottle and open it under aseptic condition.
2. Add required volume of the BLOK™ Casein in TBS solution to the western blot, microplate well or immunohistochemical slide as per experimental protocol.
3. Incubate for 30 minutes to 2 hours at room temperature with gentle shaking.
4. Proceed with experimental protocol for specific applications.
