

Simple Tools for Simple Tasks

Brady Material Dispenser with Liner Remover

Your one-off identification tasks are quick and uncomplicated – keep it that way with the Brady Material Dispenser with Liner Remover, and complement your Brady printing solution.

Perfectly designed to fit your three-inch core Brady materials, this material dispenser is easy to use with one hand. The narrow design means space is saved for your more important work projects. You'll also keep your area cleaner with the liner remover that takes up the liner from the material roll. And, get bonus green points by reusing your old material rolls as a liner take up roll. Other helpful features include:

- **Sturdy weighted base and rubber feet** keep the dispenser in place during your on-the-go labeling
- **Minimal adhesive exposure** to the elements so your labels last even in the harshest environments
- **Brady's complete three-inch core continuous material** offering designed to stand up to your toughest conditions
- **Options for custom-printed materials** to fit your unique needs

Catalog No.	Material	Color	Label Width Inch (mm)	Roll Length Feet (m)	Rec. Ribbon
