MATERIAL SAFETY DATA SHEET

according to the Global Harmonized System

SECTION 1.Identification		
Product identifier		
Product number	820158	
Product name	4,4'-Bipyridine for synthesis	
Relevant identified uses of the	he substance or mixture and uses advised against	
Identified uses	Chemical for synthesis	
Details of the supplier of the	safety data sheet	
Company	EMD Millipore Corporation 290 Concord Road, Billerica, MA 01821, United States of America SDS Phone Support: +1-978-715-1335 General Inquiries: +1-978-751-4321 Monday to Friday, 9:00 AM to 4:00 PM Eastern Time (GMT-5)	
	e-mail: mm_sds@merckgroup.com	
Emergency telephone	613-996-6666 CANUTEC (Canada) +1-703-527-3887 CHEMTREC (International) 24 Hours/day; 7 Days/week	

Date of issue: 02/04/2013

SECTION 2. Hazards identification

GHS Classification

Acute toxicity, Category 3, Oral, H301

For the full text of the H-Statements mentioned in this Section, see Section 16.

GHS-Labeling

Hazard pictograms

Signal Word Danger

Hazard Statements H301 Toxic if swallowed.

Precautionary Statements P260 Do not breathe dust.

Version 1.0

Product number	820158	Version 1.0
Product name	4,4'-Bipyridine for synthesis	

P262 Do not get in eyes, on skin, or on clothing. P309 + P310 IF exposed or if you feel unwell: Immediately call a POISON CENTER or doctor/physician.

Other hazards

None known.

SECTION 3. Composition/information on ingredients

Formula	4-(C₅H₄N)-4-(C₅H₄N)	C₁₀HଃN₂ (Hill)
CAS-No.	553-26-4	
Molar mass	156.18 g/mol	

Hazardous ingredients

Chemical Name (Concentration) CAS-No. *4,4'-Bipyridyl (>= 90 % - <= 100 %)* 553-26-4

SECTION 4. First aid measures

Description of first-aid measures

Inhalation After inhalation: fresh air.

Skin contact

After skin contact: wash off with plenty of water. Remove contaminated clothing.

Eye contact

After eye contact: rinse out with plenty of water. Immediately call in ophthalmologist.

Ingestion

If swallowed: give water to drink (two glasses at most). Seek medical advice immediately. In exceptional cases only, if medical care is not available within one hour, induce vomiting (only in persons who are wide awake and fully conscious), administer activated charcoal (20 - 40 g in a 10% slurry) and consult a doctor as quickly as possible.

Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Shortness of breath, Drowsiness

Indication of any immediate medical attention and special treatment needed

No information available.

SECTION 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media Water, Carbon dioxide (CO2), Foam, Dry powder

Unsuitable extinguishing media

For this substance/mixture no limitations of extinguishing agents are given.

Product number	820158	Version 1.0
Product name	4,4'-Bipyridine for synthesis	

Special hazards arising from the substance or mixture

Combustible material

Development of hazardous combustion gases or vapors possible in the event of fire. Fire may cause evolution of: nitrogen oxides

Advice for firefighters

Special protective equipment for fire-fighters Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

Further information

Prevent fire extinguishing water from contaminating surface water or the ground water system. Suppress (knock down) gases/vapors/mists with a water spray jet.

SECTION 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel: Avoid substance contact. Avoid inhalation of dusts. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: Protective equipment see section 8.

Environmental precautions

Do not empty into drains.

Methods and materials for containment and cleaning up

Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions (see sections 7 and 10). Take up dry. Dispose of properly. Clean up affected area. Avoid generation of dusts.

SECTION 7. Handling and storage

Precautions for safe handling

Observe label precautions.

Conditions for safe storage, including any incompatibilities

Dry. Tightly closed. Keep in a well-ventilated place. Keep locked up or in an area accessible only to qualified or authorized persons.

Store at +15°C to +25°C (+59°F to +77°F).

SECTION 8. Exposure controls/personal protection

Exposure limit(s)

Contains no substances with occupational exposure limit values.

Engineering measures

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment.

Product number	820158	Version 1.0
Product name	4,4'-Bipyridine for synthesis	

Individual protection measures

Protective clothing should be selected specifically for the workplace, depending on concentration and quantity of the hazardous substances handled. The chemical resistance of the protective equipment should be inquired at the respective supplier.

Hygiene measures

Immediately change contaminated clothing. Apply skin- protective barrier cream. Wash hands and face after working with substance. Work under hood. Do not inhale substance/mixture.

Eye/face protection Safety glasses

Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Other protective equipment: protective clothing

Respiratory protection

required when dusts are generated.

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

SECTION 9. Physical and chemical properties

Physical state	powder, finecrystalline
Color	yellow
Odor	No strong odor known.
Odor Threshold	No information available.
рН	No information available.
Melting point	109 - 113 °C
Boiling point/boiling range	581 °F (305 °C)
Flash point	No information available.
Evaporation rate	No information available.
Flammability (solid, gas)	No information available.
Lower explosion limit	No information available.
Upper explosion limit	No information available.
Vapor pressure	No information available.

Product number Product name	820158 4,4'-Bipyridine for synthesis	Version 1.0
Relative vapor density	No information available.	
Relative density	No information available.	
Water solubility	4.5 g/l at 77 °F (25 °C)	
Partition coefficient: n- octanol/water	log Pow: 1.28 (experimental) (Lit.) Bioaccumulation is not expected (log Pow <1).	
Autoignition temperature	No information available.	
Decomposition temperature	No information available.	
Viscosity, dynamic	No information available.	
Explosive properties	Not classified as explosive.	

SECTION 10. Stability and reactivity

Reactivity

The following applies in general to flammable organic substances and mixtures: in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

Chemical stability

The product is chemically stable under standard ambient conditions (room temperature) .

Possibility of hazardous reactions

Violent reactions possible with:

Strong oxidizing agents, Strong acids

Conditions to avoid

no information available

Incompatible materials

no information available

Hazardous decomposition products

in the event of fire: See section 5.

SECTION 11. Toxicological information

Information on toxicological effects

Likely route of exposure Inhalation, Eye contact, Skin contact, Ingestion

Acute oral toxicity LD50 rat: 172 mg/kg (RTECS) Symptoms: Drowsiness, Shortness of breath Specific target organ systemic toxicity - single exposure The substance or mixture is not classified as specific target organ toxicant, single exposure. Specific target organ systemic toxicity - repeated exposure The substance or mixture is not classified as specific target organ toxicant, repeated exposure. Aspiration hazard Regarding the available data the classification criteria are not fulfilled. Carcinogenicity IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. OSHA No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. ACGIH No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. ACGIH No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.	Product number Product name	820158 4,4'-Bipyridine for synthesis	Version 1.0

		carcinogen by ACGIH.	

Further information

Other dangerous properties can not be excluded. Handle in accordance with good industrial hygiene and safety practice.

SECTION 12. Ecological information

Ecotoxicity

No information available.

Persistence and degradability No information available.

Bioaccumulative potential

Partition coefficient: n-octanol/water log Pow: 1.28 (experimental) (Lit.) Bioaccumulation is not expected (log Pow <1).

Mobility in soil

No information available.

Other adverse effects

Additional ecological information We have no quantitative data concerning the ecological effects of this product. Further information on ecology

Product number	820158	Version 1.0
Product name	4,4'-Bipyridine for synthesis	

Discharge into the environment must be avoided.

SECTION 13. Disposal considerations

The information presented only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. Disposal should be in accordance with applicable regional, national and local laws and regulations.

SECTION 14. Transport information

Land transport (DOT)	
UN number	UN 2811
Proper shipping name	TOXIC SOLID, ORGANIC, N.O.S. (4,4-BIPYRIDINE)
Class	6.1
Packing group	III
Environmentally hazardous	
Air transport (IATA)	
UN number	UN 2811
Proper shipping name	TOXIC SOLID, ORGANIC, N.O.S. (4,4-BIPYRIDINE)
Class	6.1
Packing group	III
Environmentally hazardous	
Special precautions for user	no
Sea transport (IMDG)	
UN number	UN 2811
Proper shipping name	TOXIC SOLID, ORGANIC, N.O.S. (4,4-BIPYRIDINE)
Class	6.1
Packing group	III
Environmentally hazardous	
Special precautions for user	yes
EmS	F-A S-A

SECTION 15. Regulatory information United States of America

Canada

WHMIS Classification

D1B

Toxic Material Causing Immediate and Serious Toxic Effects

Toxic by ingestion

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

Product number	820158	Version 1.0
Product name	4,4'-Bipyridine for synthesis	
Notification status		
TSCA:	On TSCA Inventory	
	All second sectors of this and deathers are the Osma disc DOI	
DSL:	All components of this product are on the Canadian DSL.	
SECTION 16. Other information		
SECTION 16. Other Information		
Training advice		
-	on, instruction and training for operators.	
	,	
Full text of H-Statements referred to under sections 2 and 3.		
H301	Toxic if swallowed.	
	ns and acronyms used in the safety data sheet	
Used abbreviations and acro	onyms can be looked up at www.wikipedia.org.	

Date of issue: 02/04/2013

The information contained herein is based on the present state of our knowledge. It characterizes the product with regard to appropriate safety precautions. It does not represent a warranty of any product properties and we assume no liability for any loss or injury which may result from the use of this information. Users should conduct their own investigations to determine the suitability of the information.
