

January 4, 2016

Dear Valued VWR Customer,

Thank you for your continued business. This letter is to serve as notification that the VWR supplier for the products listed below is adding heat seal to the containers for all 180 and 240 mL prefilled formalin containers. This addition, similar to the heat seals on the current 360, 480, and 1000 mL containers, will be implemented to better meet customers' needs.

The VWR part numbers affected by this change are:

16004-122

16008-000

This change will be implemented in early 2016 and will occur over the next few months as remaining stock of current inventory is phased out. The packaging quantity, size, etc. will not be affected.

For any questions, please email VWR Quality Assurance: QA@vwr.com

Thank you for your continued support of VWR products.

Sincerely,

Phil Irwin
