TUBE RACKS

VWR® Rotating Shelf Tube Rack

Rotate With Ease to Accommodate Specific Needs

This multi-purpose rack is designed with the flexibility to hold multi-sized tubes, just rotate to accommodate the tube size.

- Rack holds 5 or 15mL (up to 17mm dia.) tubes, or a combination of both
- Ergonomic handles for ease of use
- Imprinted grid on both sides of the upper shelves allows quick identification and retrieval
- Shelves rotate easily to accommodate the different size tubes
- Autoclavable

Rotate one or both segments down to hold 5mL tubes

Unique tear drop shaped openings for better retention of tubes

VWR® Customizable Chain Tube Rack

Multiple Configurations for 5mL/15mL and 17mm Tubes

Work outside the traditional tube rack box shape, or don't. You decide. Now you can configure a tube rack to meet your requirements instead of the other way around. The Chain Rack has a unique linkable design that enables the possibility of multiple configurations to form different shaped tube racks. Each well has the flexibility to hold 5mL tubes on one side or rotate it 180° to hold 15mL or 17mm tubes (round and conical bottom). Mix and match the well sizes to create one rack that holds multiple sized tubes in a variety of fun and functional configurations.

- Chain Rack can be modified to be used in multiple applications including: in water or ice baths, in phlebotomy trays, in a Duraport® specimen transport case or anywhere a tube rack is needed
- Maximize your valuable bench space with the flexibility to hold multiple size tubes (5/15mL and 17mm tubes) in one configurable rack
- Open design allows exposure to water and ice baths and helps reduce identification errors
- Create different shapes and rack sizes with up to 16 wells depending on the need: straight line, a circle, 2 x 8, 4 x 4, etc.
- Link together multiple Chain Rack packs to accommodate larger tube rack configuration requirements
- Assorted colors for easy identification of tubes or testing (blue, green, yellow and natural)
- NOT Autoclavable
- Exclusive design

VWR® Floating Microtube Racks

- Made from polypropylene
- Use on the bench, with water baths or ice containers
- Keeps microtubes afloat in a water bath or can be pushed into crushed ice - perfect for controlling sample temperature.
- Not recommended for autoclaving

Detachable legs provide two options:

- Attach legs so rack stands upright on bench top
- Detach legs so samples can be quickly popped out by pushing down onto any surface

PIPETTE STORAGE

VWR® Universal Pipette Carousel Stand

Pipettes Never Looked so Good On Your Bench Top

NEW

Hold and store pipettes in style with the new universal pipette stand that holds up to 8 single channel, 4 multi channel, or a combination of both pipettes. A sleek and modern design enables this stand to securely hold virtually every known brand of pipette in the marketplace making it truly 'universal' while adding a pop of color to a bench top. Inserts on the upper holders can be added or removed to accommodate the fit of different of pipette widths. One handed removal or replacement of pipettes is made easy with a rotating head and stable weighted base. Moving the stand while keeping pipettes in place is simple with a quick grip handle allowing a user to grab and go. The pipette stands come with additional upper leaves to enable multiple color coding configuration options as well as a change in color to your work space, for a bit more fun.

- Ideal for labs that do not wish to be tied into a specific brand of pipette, or already have multiple brands in use
- Weighted base allows for easy removal or replacement of pipettes, with one hand
- Pipettes are held in a vertical position to help prevent contamination
- Conveniently rotate stand head to select or store pipettes
- Quick grip handle to move pipette stand (loaded or unloaded)
- Assorted color options allow for color coding pipette location
- The unit is not autoclavable but can be cleaned with soap/water or common laboratory disinfectants
- Made of ABS (Acrylonitrile Butadiene Styrene)
- Exclusive design
