

DURAN

STAINLESS STEEL BOTTLES

Ideal for storage and shipping applications where glass is not applicable, due to the risk of breakage or chemical incompatibility. Manufactured from corrosion resistant AISI Type 316 L (1.4404) stainless steel, and hygienically constructed with all welded seams. The bottle has a smooth inner surface finish that corresponds to IIIc (DIN 17441).

Lab and Storage Bottle:

- Supplied without a cap (compatible with all the GL45 caps)
- Hazardous materials laboratory container for storage of liquids, intermediates, or solid product
- Storage of precious materials, such as high purity fine chemicals, pharmaceutical or cosmetic products
- Storage of light sensitive materials

UN-Certified Bottle adds:

- Supplied with GL45 stainless steel cap and PTFE sealing disc
- Certified to UN standards for the carriage of HAZMAT Class 3: Flammable Liquids; classified as dangerous goods in UN packing Group I: (great danger) Groups II (medium danger) and III (low danger)

Stainless Steel Caps

- GL45 thread
