

Part of Thermo Fisher Scientific

## Material Safety Data Sheet

Product name	: Stable Peroxide Substrate Buffer (10x) 100 ml
Supplier	: Thermo Fisher Scientific Pierce Biotechnology P.O. Box 117 Rockford, IL 61105 United States 815.968.0747 or 800.874.3723 Hermo Fisher Scientific Pierce Biotechnology P.O. Box 117 Rockford, IL 61105 United States 815.968.0747 800.874.3723
Product No.	: 0034062
MSDS #	: 2453
Validation date	: 6/10/2009.
Print date	: 6/10/2009.
Responsible name	: MSDS (Regulatory Affairs)
<u>In case of emergency</u>	: CHEMTREC: Use of 800.424.9300 Substance/Preparation OUTSIDE US: 202.483.7616 : Refer to the instruction booklet for specific applications. : Refer to the instruction booklet for proper and intended use. Otherwise, contact supplier for specific applications.

#### Hazards identification 2.

Physical state	1	Liquid.				
OSHA/HCS status	-	This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).				
Emergency overview	1	WARNING !				
		CAUSES RESPIRATORY TRACT, EYE AND SKIN IRRITATION. CONTAINS MATERIAL THAT CAN CAUSE TARGET ORGAN DAMAGE.				
		Severely irritating to eyes. Irritating to respiratory system and skin. Avoid exposure - obtain special instructions before use. Do not breathe vapor or mist. Do not get in eyes. Avoid contact with skin and clothing. Contains material that can cause target organ damage. Use only with adequate ventilation. Keep container tightly closed and sealed until ready for use. Wash thoroughly after handling.				
Routes of entry		Dermal contact. Eye contact. Inhalation. Ingestion.				
Potential acute health effect	s					
Inhalation	1	Irritating to respiratory system.				
Ingestion	1	No known significant effects or critical hazards.				
Skin	:	Irritating to skin.				
Eyes	1	Severely irritating to eyes. Risk of serious damage to eyes.				
Potential chronic health effe	cts					
Chronic effects	1	Contains material that can cause target organ damage.				
Carcinogenicity : No known significant effects or critical hazards.						
Mutagenicity	1	No known significant effects or critical hazards.				
Teratogenicity	1	No known significant effects or critical hazards.				
6/10/2009.		1/0

### **Thermo**

#### Stable Peroxide Substrate Buffer (10x) 100 ml 2. Hazards identification : No known significant effects or critical hazards. Developmental effects **Fertility effects** : No known significant effects or critical hazards. : Contains material which causes damage to the following organs: upper respiratory tract, **Target organs** eye, lens or cornea. Over-exposure signs/symptoms Inhalation : Adverse symptoms may include the following: respiratory tract irritation coughing : No specific data. Ingestion Skin : Adverse symptoms may include the following: irritation redness Eyes : Adverse symptoms may include the following: pain or irritation watering redness **Medical conditions** : Pre-existing disorders involving any target organs mentioned in this MSDS as being at risk may be aggravated by over-exposure to this product. aggravated by overexposure

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : Not classified.

See toxicological information (section 11)

#### 3. Composition/information on ingredients

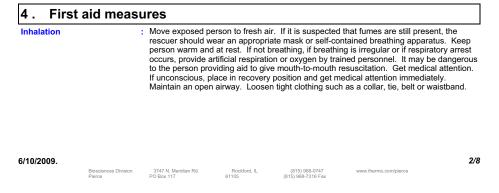

### **United States**

Name Citric Acid Anhydrous **CAS number** 77-92-9

<u>%</u> 5 - 7

#### : Preparation Substance/preparation

There are no ingredients or additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

# SCIENTIFIC

4. First aid me	
ngestion	Wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Eye contact	: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention. Chemical burns must be treated promptly by a physician.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

Flammability of the product	: In a fire or if heated, a pressure increase will occur and the container may burst.				
Extinguishing media					
Suitable	: Use an extinguishing agent suitable for the surrounding fire.				
Not suitable	: None known.				
Special exposure hazards	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.				
Hazardous combustion products	: Decomposition products may include the following materials: carbon oxides metal oxide/oxides				
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.				

### 6. Accidental release measures

Personal prec	autions	Evacuate surrour entering. Do not Provide adequate	nding areas. Ke touch or walk th e ventilation. W	ep unnecessary an irough spilled mate ear appropriate res	or without suitable training. d unprotected personnel frr rial. Avoid breathing vapor pirator when ventilation is equipment (see section 8).	om or mist.

6. Accidental re	lease measures
Large spill	: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wa spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, verniculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material expanded to the spilled product. Note: see section 13 for emergency contact information and section 13 for waste disposal.
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop u if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
7. Handling and	storage
Handling	: Put on appropriate personal protective equipment (see section 8). Eating, drinking an smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smokin Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Storage	: Store between the following temperatures: 2 to 8°C (35.6 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready fr use. Containers that have been opened must be carefully resealed and kept upright the prevent leakage. Do not store in unlabeled containers. Use appropriate containment avoid environmental contamination.

Stable Peroxide Substrate Buffer (10x) 100 ml				
8 . Exposure controls/personal protection				
Hands	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.			
Eyes	<ul> <li>Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.</li> </ul>			
Skin	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.			
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.			

### 9. Physical and chemical properties

Physical state : Liquid.				
: Clear. Colorless.				
: 5 to 5.4				
reactivity				
: The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur.				
: No specific data.				
: No specific data.				
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
