

BSE / TSE Statement

VWR* BEARD COVER

This document certifies that the below mentioned product meets the following criteria:

North American Catalog Number:	89107-778
Description:	VWR BEARD COVER LF CS1000

The materials used in the manufacturing of the above mentioned product is not derived from human, cattle, sheep, goat animal origin.

The Manufacturer of this product indicates that their materials are made of polystyrene, polypropylene and other petroleum derivatives.

The production of these raw materials utilizes processing steps with exposure to high temperature and pressure that comply with those most recent scientifically recongnized for inactivation of BSE. Specifically the manufacturer states that the material undergo severe processing conditions temperature than 200 oC an hour, which can completely destroy BSE proteins.

Additionally, spray-fusing process of the basic materials involves elevated processing temperature which further reduce the possibility of BSE/TSE transmitter being present.

For these reasons the above mentioned product is considered to be BSE/TSE protein free.
