## Certificate of Compliance

### Azlon Autoclavable Carboys, Polypropylene

Dynalon Products Covered:

**505634-1, 505634-2, 505634-3**

Regarding our Polypropylene Azlon Autoclavable Carboys, I wish to inform you that these are manufactured in the United Kingdom with an autoclavable, FDA compliant Polypropylene resin.

Autoclavable PP, heavy-duty construction from an FDA compliant resin. Stylish rounded octagonal shape for increased rigidity when full and offset neck for easier filling and pouring. Integral, comfortable blow molded handles for ease of carrying are end-sealed to prevent contamination. Heavy-duty closures are compatible with other leading brands. Carboys feature a durable and leak-proof heavy-duty spigot with boss fitting for extra strength. Molded graduations allow easy viewing of contents.
