Rotate one or both segments down to hold 5mL tubes

**VWR® ROTATING SHELF TUBE RACK**

**ROTATE WITH EASE TO ACCOMMODATE SPECIFIC NEEDS**

With bench top space at a premium, it's important for research and clinical labs working across a range of applications to efficiently use the space available. Unlike other tube racks, these multi-purpose racks are specifically designed with the flexibility to hold multiple tube sizes firmly in place to assist technicians constantly alternating between sample vessels.

- The rack incorporates two moving hinged shelves that can be rotated to an up or down position to accommodate the size of the tube being used
- When working with samples, the shelves can be rotated to an angle position to facilitate more comfortable pipetting and allow better visibility
- The tube rack wells have a unique teardrop design that enables easier insertion and better retention of tubes over traditional designs
- Ergonomic handles for ease of transporting the rack
- Molded grid on both sides of the shelves for quick sample identification and retrieval
- Autoclavable
- Exclusive, patented design

**VWR® CUSTOMIZABLE CHAIN TUBE RACK**

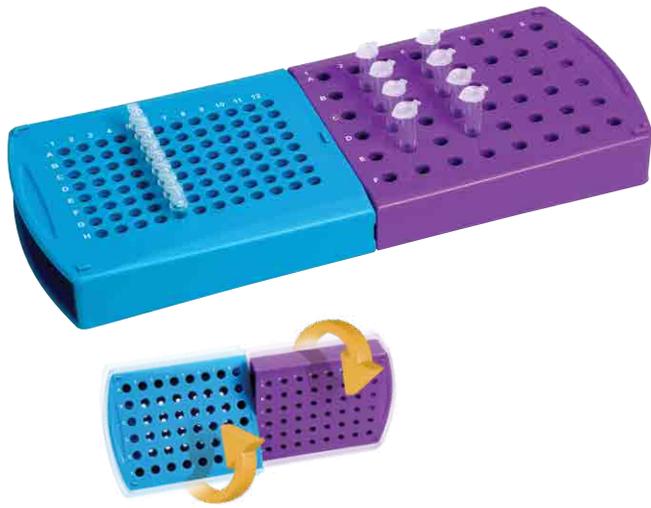

**MULTIPLE CONFIGURATIONS FOR 5ML/15ML AND 17MM TUBES**

Work outside the traditional tube rack box shape, or don't. You decide. Now you can configure a tube rack to meet your requirements instead of the other way around.

The Chain Rack has a unique linkable design that enables the possibility of multiple configurations to form different shaped tube racks. Each well has the flexibility to hold 5mL tubes on one side or rotate it 180° to hold 15mL or 17mm tubes (round and conical bottom). Mix and match the well sizes to create one rack that holds multiple sized tubes in a variety of fun and functional configurations.

- Can be modified to be used in multiple applications including: in water or ice baths, in phlebotomy trays, in a Duraport® specimen transport case, or anywhere a tube rack is needed
- Maximize valuable bench space with the flexibility to hold multiple size tubes (5/15mL and 17mm tubes) in one configurable rack
- Open design allows exposure to water and ice baths and helps reduce identification errors
- Create different shapes and rack sizes with up to 16 wells depending on the need: straight line, circle, 2 x 8, 4 x 4, etc.
- Link together multiple Chain Rack packs to accommodate larger tube rack configuration requirements
- Assorted colors for easy identification of tubes or testing (blue, green, yellow, and natural)
- NOT Autoclavable
- Exclusive design

### VWR® ROTA-RACK® DUO TUBE RACK

#### DILUTION AND CONCENTRATION STUDIES MADE EASY

- Made from polypropylene
- Transfer solutions between 0.2mL PCR tubes and 0.5 and 1.5mL micro centrifuge tubes
- Rotate and customize to suit your application needs; four combinations possible
- Blue section holds 48 x 0.5mL and 48 x 1.5mL microfuge tubes on the reverse side
- Purple section holds 96 x 0.2mL tubes in a standard array pattern and 48 x 1.5mL tubes on the reverse side
- Tapered wells securely suspend tubes which makes removal easy
- Alphanumeric well identification
- Autoclavable

**VWR® STORAGE RACKS FOR 80-WELL  
MICROTUBE RACKS**

**STRONG, CLEAR ACRYLIC CONSTRUCTION**

These racks help you keep large numbers of microtubes organized on your benchtop.

- Holds up to eight 80-well microtube racks filled with either 1.5 or 2.0mL microtubes
- Plenty of room to slide the racks in and out

**EASY-TO-GRASP TABS FOR SAMPLE HANDLING AND STORAGE**

Reverse 96 wells for 0.5mL tubes on one side and 96 wells for 1.5/2.0mL tubes on the reverse side.

- Made of polypropylene
- Wells are arranged in standard 8 x 12 array
- Tabs on each end of rack snap lid into place
- 0.5mL wells separated by molded-in grid lines, making them easier to see
- Raised rings around the 1.5 to 2.0mL wells make tubes easier to remove

### VWR® FLOATING MICROTUBE RACKS

- Made from polypropylene
- Use on the bench, with water baths, or ice containers
- Keeps microtubes afloat in a water bath, or can be pushed into crushed ice - perfect for controlling sample temperature
- Not recommended for autoclaving

Detachable legs provide two options:

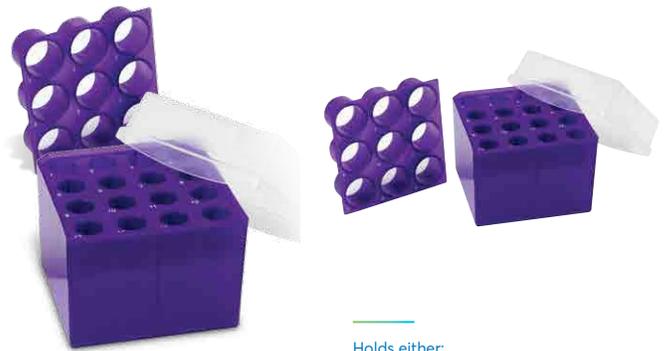

- Attach legs so rack stands upright on bench top
- Detach legs so samples can be quickly popped out by pushing down onto any surface

**VWR® UNIVERSAL PIPETTE CAROUSEL STAND**

**PIPETTES NEVER LOOKED SO GOOD ON YOUR BENCH TOP**

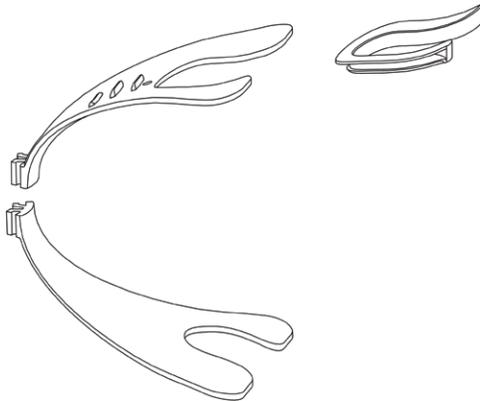

Hold and store pipettes in style with the new universal pipette stand that holds up to eight single channel, four multi channel, or a combination of both pipettes. A sleek and modern design enables this stand to securely hold virtually every known brand of pipette in the marketplace making it truly 'universal' while adding a pop of color to a bench top. Inserts on the upper holders can be added or removed to accommodate the fit of different of pipette widths. One-handed removal or replacement of pipettes is made easy with a rotating head and stable weighted base. Moving the stand while keeping pipettes in place is simple with a quick grip handle allowing a user to grab and go.

Pipette stand comes with additional upper leaves to enable multiple color coding configuration options as well as a change in color to your work space.

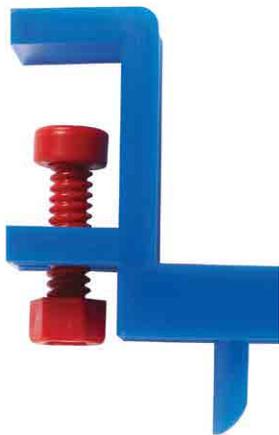

- Ideal for labs that do not wish to be tied into a specific brand of pipette, or already have multiple brands in use
- Weighted base allows for easy removal or replacement of pipettes with one hand
- Pipettes are held in a vertical position to help prevent contamination
- Conveniently rotate stand head to select or store pipettes
- Quick grip handle moves pipette stand (loaded or unloaded)
- Assorted color options allow for color coding pipette location
- The unit is not autoclavable but can be cleaned with soap/ water or common laboratory disinfectants
- Made of ABS (Acrylonitrile Butadiene Styrene)
- Exclusive design

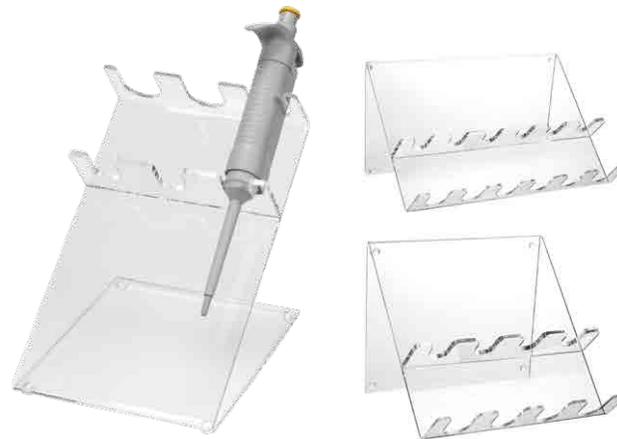

Multiple color coding options for categorization, or just for fun!

# VWR premium microscope slide boxes

## IDEAL FOR STORAGE OR TRANSPORTATION OF STANDARD SIZE SLIDES

- Durable ABS plastic boxes are available with either cork or foam lining
- Designed to securely store slides in grooved slots
- Molded feet enable secure stacking for easy transport and storage
- Both the lining and the slots are numbered to correspond to the slide inventory sheet
- Stay organized with a molded labeling area with "Project" and "Date"
- Available in multiple colors for project coding

Easy access slides with friction-fit cover

Thumb-latch lock mechanism

**VWR® PREMIUM PLUS SLIDE BOXES, 100-PLACE**  
**MODERN DESIGN FOR MAXIMUM FUNCTIONALITY**

Boxes are made from ABS and Polypropylene, which makes them robust and eliminates potential rusting of metal parts. Units can be stored vertically or horizontally helping to efficiently use available space.

- Inventory card is removable and replaceable for trouble-free writing on flat surfaces
- Sliding lock provides secure storage with easily identified lock and unlock symbols (2mm zip tie can be used for more secure storage)
- Hinged lid smoothly opens 180° sitting flat on surfaces and prevents misplacement
- EVA foam lines the bottom of the box helping to hold slides securely in place and protect against damage
- Multiple labeling areas, a large area on the lid of the box with "project" and "date" molded in, and the back of the index card can be used as the lid is transparent
- Vibrant translucent colors are easy to identify and enable coding options
- Stylish wave surface texture is easy to hold, increasing safety of sample transport
- Stackable, molded feet allow secure horizontal stacking of multiple units for safe transport or storing
- Unique side storage can accommodate a pen, desiccant, or other small items needed for working
- Patent Pending

**VWR® MICRO SLIDE TRAYS**

**CARDBOARD SLIDE TRAYS HOLD STANDARD SLIDES (26 X 76MM AND 1 X 3")**

Cardboard slide folders offer a convenient solution for safely working, transporting, and short-term storing of slides. Easily organize slides with the index on the front cover that corresponds with the number grid inside.

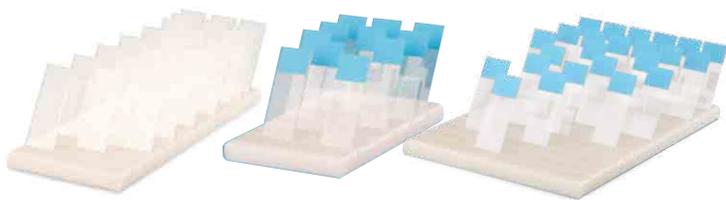

- Recessed slide compartments and inside covers protect specimens; slides cannot be touched when the cover is closed, reducing contamination
- Front protection flaps are attached with durable tape for repeated use; fold flaps flat under the slide holder to save space when in use
- Thumb cut in slide compartments enables easy removal of slides with slight pressure at one end
- Compartment holder is made from a double layer of densely pressed cardboard; cover is a single layer cardboard
- Available in two sizes that hold 20 or 30 standard (26 x 76mm and 1 x 3") slides
- Disposable

# One product combines scoop and weighboat

## VWR® DUAL PURPOSE SCOOPS

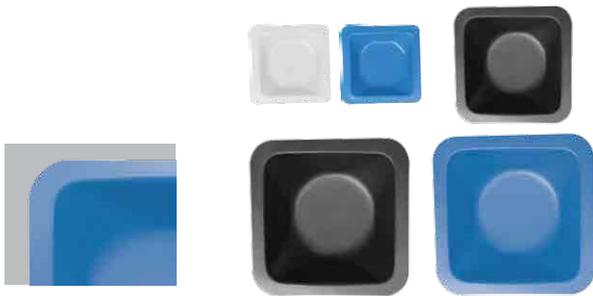

These dual purpose scoops are a unique and economical solution that combines the function of a scoop and a weighboat into one product.

The weighing process has been streamlined, allowing user to simply sample or retrieve material in the scoop and place it directly on a scale. This eliminates the need for a weighboat or weighing paper and saves valuable space in the lab. When finished, the scoop is disposable.

- Made from anti-static polystyrene that is waterproof, reducing the chance of materials sticking to the scoop
- Ships and stores flat, easy to assemble when ready to use by inserting the locking tab into the hole
- Locking tab feature enables a scoop shape to help retain materials
- Coated to stand up to powders, gels, and semi-solids
- Broad tip design keeps the scoop stable while on a scale, enabling materials to be easily scooped and dispensed
