CytoSep™ Single Cytology Funnel

Consumables for the Shandon Cytospin® Cytocentrifuges.

- Disposable funnel offers a lower risk of contamination than reusable funnels
- Pre-attached filter card for reliable and consistent results
- For sample volumes up to 0.5 ml
- Can be used with all stainless steel slide clips
- All components are available separately

Fully compatible with the Shandon CytoSpin® Centrifuge, Simport CytoSep™ Cytology Funnels can be used to deposit a thin layer of cells in a clearly defined area of a microscope slide.

For sample volumes of up to 0.5 ml, use the Simport CytoSep™ Cytology Funnel with a white filter Card and cap. For samples volumes of up to 0.4 ml, use the CytoSep™ Cytology Funnel with brown filter card and cap. It allows for a slower absorption of fluids. Can be used with all stainless steel slide clips.

The disposable Cytology Funnels have the filter cards pre-attached for consistent, reliable results. No alignment necessary. All disposable Funnels are packaged with closure caps to seal in specimen for added protection.

Plastic components made of polypropylene. All components are available separately.

CAT. NO	PRODUCT DESCRIPTION	QTY/PK	QTY/CS
CA89305-072	Single Funnel with White Filter and Cap	50	500
CA11028-250	Individually Wrapped Single Funnel with White Filter and Cap	100	500
CA89305-070	Single Funnel with Tan Filter and Cap	50	500
CA89305-068	Single Funnel Only	-	500
CA89305-080	Cap Only	50	500
CA89305-078	White Filter Paper for Single Funnel	200	-
CA89305-082	Brown Filter Paper for Single Funnel	200	-

CytoSep™ Double Cytology Funnel

Consumables for the Shandon Cytospin® Cytocentrifuges.

- Disposable funnel offers lower risk of contamination than reusable funnels
- Pre-attached filter card for reliable and consistent results
- Run two samples simultaneously on a single slide
- Can be used with all stainless steel slide clips
- All components are available separately

Fully compatible with the Shandon CytoSpin® Centrifuge, Simport® CytoSep™ Cytology Funnels with disposable sample chamber allows for two samples to be run simultaneously on a single slide and is ideal for immunohistochemistry work. The Double CytoSep™ Cytology Funnel provides a cell deposition area of 6 mm (28 mm²) for sample volumes of up to 0.5 ml.

The disposable Cytology Funnels have the filter cards pre-attached for consistent, reliable results. No alignment necessary. All disposable Funnels are packaged with closure caps to seal in specimen for added protection.

Plastic components made of polypropylene. All components are available separately.

CytoSep™ Single & Double Cytology Funnels

Consumables for the Shandon Cytospin® Cytocentrifuges.

- Disposable funnel offers a lower risk of contamination than reusable funnels
- Pre-attached filter card for reliable and consistent results
- For sample volumes up to 0.5 ml
- No metal clips required
- All components are available separately

This series of Simport® CytoSep™ Cytology Funnels is so easy to use and improves turn-around time while giving more diagnostic information. The disposable sample chambers do not need metal clips and are designed to meet any processing requirement. They are capable of producing high quality thin-layer slide preparations while improving laboratory efficiency.

The disposable Sample Chambers with white filter cards are used for sample volumes up to 0.5 ml; the ones with the Brown Filter Cards are for sample volumes up to 0.4 ml. The cell deposition area is 6 mm in diameter (28 mm squared). **All components are available separately.**
